The screenshot displays the Scimago Journal & Country Rank interface for the Oriental Journal of Chemistry. The page header includes the SJR logo, the text "Scimago Journal & Country Rank", and a search bar. The journal's name "Oriental Journal of Chemistry" is prominently displayed, along with a note that it was discontinued in Scopus as of 2018. The main content is organized into four columns: COUNTRY (India), SUBJECT AREA AND CATEGORY (listing Biochemistry, Genetics and Molecular Biology, Chemistry, Environmental Science, and Pharmacology, Toxicology and Pharmaceuticals), PUBLISHER (Bhopal, S.A. Iqbal), and H-INDEX (23). A small logo for "Universities and research institutions in India" is also visible.

COUNTRY	SUBJECT AREA AND CATEGORY	PUBLISHER	H-INDEX
India	Biochemistry, Genetics and Molecular Biology └ Biochemistry Chemistry └ Chemistry (miscellaneous) Environmental Science └ Environmental Chemistry Pharmacology, Toxicology and Pharmaceuticals └ Drug Discovery	Bhopal, S.A. Iqbal	23

Journal is abstracted and indexed in:

Oriental Journal of Chemistry is an open access, 100% refereed, peer reviewed, bimonthly research journal of pure and applied chemistry. It publishes standard research articles in almost all thrust areas of current chemistry of academic and commercial importance. It provides a platform for publication of quality research articles, reviews and brief communications. Oriental Journal of Chemistry is abstracted and indexed in almost all reputed National and International agencies.

Dear Dr.

Greetings!

I am pleased to introduce to you our "Oriental Journal of Chemistry", [www.orientjchem.org](http://www.orientjchem.org) which is being regularly published for the last 35 years.

Having come to know that you are a renowned researcher in the field of chemistry.

I take the liberty to send you an article of your branch i.e. attached in the form of a Performa for your perusal, review and necessary decision; you may return the filled report within 5-7 days, for which we will remain thankful and we will have everlasting academic/research relations.

Kindly acknowledge your acceptance for the same.

Best Regards!

Dr. S. A. Iqbal, Ph. D., FICS, FICC, FIAEM, MNASc.

Chief Editor

(Final Review Part B)

Read the instructions in the box carefully

(It is mandatory for every reviewer to complete both the parts of final review i.e. Review Part A & Review Part B. If a reviewer only completes the Part A while ignores the Part B, his review will not be accepted.)

To write your views about the work and the suitability of manuscript for publication is very important.

- Abstract : abstract should explain introduction, the method and the conclusion of the research, include the best value that have been obtain.
- Introduction : it is too weak. Introduction should explain about the novelty of the research, some researcher has been done for the same research and explain the differences with this research. The aim of the research not explain clearly. It is too weak for the introduction of this research.
- Experimental Data : not supported by relevant references. It is too weak and not explain clearly for each figures and tables.
- Results and Discussion : it is better that the conclusion is as the same as the end paragraph of Abstract. The end paragraph of abstract should explain the conclusions of the research results.
- Conclusion : many references are not after 5 years ago, too old.
- References : many references are not after 5 years ago, too old.
- Review Decision :  The paper is accepted without modification.  
 The paper is accepted after minor modification.  
 The paper is accepted after major modification.  
 Rewrite the paper and send us at your earliest.  
 The paper is not acceptable, hence we are reluctantly returning to you.
