Abstract

- Well described on the aim & result of the study.

Introduction

1. **Paragraph 1 (line 5 & 6)**
 - redundant info on mineral.
2. **Paragraph 2 (line 1)**
 - should put the word 'reported/discussed/...' on sentence "Okechukwu, *et. al* (2013) etanol ..."

Materials & Method

1. **Animals: (Line 1)**
 - should state weight between 180 and 200 g as mentioned in the abstract.

Result

1. **Paragraph 2**
 - Based on the Table 1, the highest level of flavonoid is 24-48 hours, but the authors report differently (6-12 hours).
2. **Paragraph 3**
 - showed a vice versa result as compared to Figure 2.
3. No result reported on the excretion rates of flavonoid as mentioned in abstract.

Discussion

- No discussion on the excretion rates of flavonoid.

Conclusion

- Average rate of flavonoid excretion was reported but no data or discussion has been discussed in the study.
