Reviewer B Comments:

Changes which must be made before publication:

This article is confusing. It couldn't connect inter paragraphs from introduction to conclusion

Method: need to describe more clearly to ensure the repeat-ability and credibility of research data
Result and discussion should be arranged based on the applied methods.

Discussions related to the research perimeters and the obtained results should be justified to ensure results validity.

Conclusion: not related to the title. This section should answer research objectives.

NOTE: Please send an email to the editor to acknowledge the reception of this email notification. The editor needs to make sure that messages reach the authors and don't delay the review process.
