All articles published in are published in full open access. In order to provide free access to readers, and to cover the costs of peer review, copyediting, typesetting, long-term archiving, and journal management, an article processing charge (APC) of EUR 430 applies to papers accepted after peer review.

We recommend that the authors use the academic text editing service for the scientific articles, not just proofreading. Please use the American English option. We recommend the use of large, trusted companies with editors having a Ph.D. degree. You should also attach an editing certificate or use the editorial office services. Articles that native English speakers do not edit are not allowed for publication. The editorial team provides English academic proofreading services for the authors at an additional cost. The fee - EUR 70.00 was already included in the invoice because the certificate of English proofreading is not attached to the article.

The total fee is EUR 500.00, including English editing. Payment in EURO must be made by wire transfer to the bank account. Banks fees must be paid by the customer for both payer and payee so that we can receive the full invoiced amount.

Volume 49 (3), 2022 will be published online at the end of April.

Thank you very much for your support of open access publishing. If you have any questions, please do not hesitate to contact us via
