Abstract

The era of globalization has impacted religious organizations whose members are village youths working in the industry in the Jepara region. This study aims to determine the impact of industrialization and the factors that influence the interest of Geneng village in joining religious organizations. This study uses a descriptive approach. The research subjects were the chairperson, treasurer, secretary, members, trainers, and youth as informants. Data collection techniques using observation, interviews, & documentation. The data validity technique uses source triangulation. Data analysis techniques collect, reduce, present, and
