## PERNYATAAN

Dengan ini saya,

nama : Kakarizkia Purwito

NIM : 2201407102

prodi/jurusan : Pendidikan Bahasa Inggris/Bahasa dan Sastra Inggris

fakultas : Bahasa dan Seni

Menyatakan dengan sesungguhnya bahwa tugas akhir/skripsi/final project yang berjudul

**THE USE OF SINGLE SLOT SUBSTITUTION DRILL TO TEACH SIMPLE PRESENT TENSE FOR THE SEVENTH GRADE STUDENTS OF SMP N 1 BAWANG, BATANG IN THE ACADEMIC YEAR OF 2010/2011**

Yang saya tulis dalam rangka memenuhi salah satu syarat untuk memperoleh gelar sarjana atau strata 1 (S1) adalah benar-benar karya saya sendiri, yang melewati tahap penelitian, pembimbingan, dan pemaparan atau ujian.

Semua kutipan, baik yang langsung maupun tak langsung, baik yang diperoleh dari sumber kepustakaan wahana elektronik, wawancara langsung, maupun sumber lainnya telah disertai keterangan mengenai identitas sumbernya dengan cara sebagaimana lazimnya dalam menuliskan karya ilmiah. Dengan demikian, walaupun tim penguji dan dosen pembimbing penulisan tugas akhir/skripsi/final project ini membubuhkan tanda tangan sebagai keabsahannya, seluruh isi karya ilmiah ini tetap menjadi tanggung jawab saya sendiri. Jika kemudian ditemukan ketidaksesuaian dengan kaidah tata penulisan yang berlaku, saya bersedia menerima akibatnya.

## ACKNOWLEDGEMENTS

First of all, I wish my gratitude to the Lord of the universe, Allah SWT, for blessing me to finish this final project. Peace and blessing upon the Prophet Muhammad SAW, his family, his companions, and all of his followers. This final project was written in partial fulfillment for the degree of Sarjana Pendidikan at Semarang State University.

I modestly would like to thank to the following people:

- (a) Prof. Dr. Agus Nuryatin, M.Hum., as the Dean of Faculty of Languages and Arts of Semarang State University,
- (b) Drs. Ahmad Sofwan, Ph.D. as the Head of English Department of Faculty of Languages and Arts of Semarang State University,
- (c) Sri Wuli Fitriati, S.Pd., M.Pd., as the first advisor for her guidance, encouragement, and advice during the writing of this final project,
- (d) Drs.H.Suprpto,M.Hum., as the second advisor for his valuable suggestion and his patience in correcting this final project,
- (e) Frimadhona Syafri, S.S., M.Hum., as the first examiner who gives the improvement of this final project,
- (f) Yogi Wibowo, S.Pd., M.Pd., the Headmaster of SMP Negeri 1 Bawang, for his permission, kindness, and support during the research,
- (g) The students of VII grade of SMP Negeri 1 Bawang, for their cooperation,
- (h) All the lecturers of the English Department of Faculty of Languages and Arts, for their guidance and patience during my study,
- (i) My beloved parents and my young brothers for their love and pray,
- (j) My lovely Mumuchin for his love, pray, support and help,
- (k) All of my friends and for every one who cannot be mentioned here, for giving me love and spirit.

Kakarizkia Purwito

## ABSTRACT

**Purwito, Kakarizkia. 2011.** *The Use of Single Slot Substitution Drill to Teach Simple Present Tense for the Seventh Grade Students of SMP N 1 Bawang, Batang in the Academic Year of 2010/2011.* Final Project, English Department, Faculty of Languages and Arts, Semarang State University. First Advisor: Sri Wuli Fitriati, S.Pd, M.Pd. Second Advisor: Drs. H. Suprpto, M.Hum.

**Key Words: single slot substitution drill, simple present tense, action research.**

Observations show that the teacher still uses a conventional technique in teaching simple present tense to the seventh grade students of SMP N 1 Bawang. The students find some difficulties in learning this tense. Therefore, this study investigates the use of single slot substitution drills as a technique in teaching simple present tense.

The objectives of this study were to find out to what extent single slot substitution drills contributed to the development of the mastery in simple present tense of the seventh grade students of SMP N 1 Bawang in the academic year of 2010/2011 and to find out to what extent single slot substitution drills contributed to the development of the positive attitude in learning simple present tense of the seventh grade students of SMP Negeri 1 Bawang in the academic year of 2010/2011.

This study was a classroom action research which was conducted in two cycles. The data in this study were collected through the use of test in the form of multiple choice items and non-test instruments in the form of first and second questionnaire. Data analysis was done by using quantitative and qualitative description.

The research findings showed that there was a significant difference in the students' achievement in simple present tense before and after using single slot substitution drill technique. The average score in the pre-test was 48.88, in cycle 1 was 70.05, in cycle two was 77.29, and in the post-test was 82.52. It proved that the result of the post-test was better than the standard score of KTSP (2006) that was 65. The results of the questionnaire showed that students' positive attitude in learning simple present tense got increased.

The result of the research shows that single slot substitution drill technique gives contribution in developing students' mastery and students' positive attitude towards simple present tense. Therefore, it is suggested that teachers should use single slot substitution drills as an alternative technique in teaching simple present tense.

# CHAPTER I

## INTRODUCTION

Chapter I consists of background of the study, reasons for choosing the topic, statement of the problems, objective of the study, significance of the study, limitation of the study, and outline of the report.

### 1.1 Background of the Study

Language is a system of communication consisting of sounds, words and grammar, or the system of communication used by the people of a particular country or profession. In addition, Hornby (1995: 662) states that language is the system of sounds and words used by humans to express their thoughts and feelings. Language has an important role in a social development of students. They use language as a tool to communicate with others. It goes along with its function because according to Leech (1982: 12), the main function of language is to communicate with other people. Learning language is expected to help students to take a part in their society. Ramelan (1992: 14) states that language is said to be social, because it is only used in a social group which involves at least two persons, the speaker and the hearer. As mentioned before, the use of language enables the members of a social group to cooperate with one another for their own benefits. Moreover, it is expected that by learning language the students are able

to get knowledge from their society that will increase their intellectual knowledge in studying all subjects of study.

English is the language of England, used in Britain, most country in the British Commonwealth, the USA and some other countries (Hornby 1995: 382). Learning English as part of universal language is a common thing nowadays. Many people from different countries learn English; furthermore they acquire it in order to take a part in international network. Considering its important role in connecting people with different backgrounds of languages, gathering information, and getting better knowledge, it is important for students to learn this language and acquire it in order to be able to communicate with people from other countries. According to Ramelan (1992: 14), language has to be learn and used in a social community, without which the existence of language is beyond understanding. For this reason, English has been taught in many countries throughout the world, including Indonesia. English is the first foreign language that is taught in formal education institution in Indonesia. In Indonesia, English is learnt as a subject of study rather than as a means of communication. Therefore, Indonesian students have less chance to practice their English speaking naturally outside the classroom. It means that students does not put English into a primary needs since there is a little or even no use in their environment. In addition, English is very different from Indonesian language in the aspect of grammar, pronunciation, vocabulary, and so on. Those differences add difficulties for Indonesian students to learn English. Consequently, an enjoyable and appropriate strategy is needed to gain success in teaching and learning English in Indonesia.

Reaching the goal of teaching and learning process, the Indonesian government has set up a curriculum. Curriculum is a set of planning, strategy, and rules about the goals, contents, materials, and strategy to hold teaching and learning process to gain a specific educational purpose. Since 2006, the government has applied School-Based Curriculum (Kurikulum Tingkat Satuan Pendidikan). School based curriculum is a curriculum that is constructed and applied independently by an educational institution.

Based on School-Based Curriculum of junior high school, teaching English has three objectives. Firstly, teaching English in junior high school is intended to develop communication competence in both spoken and written form to achieve a functional literacy level. Functional literacy is the ability to use English both spoken and written to solve daily problems. Secondly, students are expected to have an awareness of the essence and importance of English to increase competitiveness in a globalization era. Lastly, it is also intended to develop students' comprehension about relevancy between language and culture.

Furthermore, it is also states that English is taught to achieve some literacy level. Those literacy levels include performative, functional, informational, and epistemic. In a performative level, people are able to read, write, listen, and speak using symbols that is used. In a functional level, people are able to use language to fulfill their daily needs such as reading newspaper, manual or direction. In an informational level, people are able to access knowledge using language ability. In an epistemic level, people can express their knowledge into the target language. In junior high school, the target of learning

English is in the functional level, which is they can communicate using English both spoken and written to solve daily problems.

Teaching English in junior high school in Indonesia covers three main scopes. First, discourse competence, include understanding and creating short functional text both spoken and written in four skill, listening, speaking, reading, and writing. Second, understanding competence, that is a competency in understanding and creating short functional text in a form of procedure, descriptive, recount, narrative, and report. Lastly, secondary competence which consists of linguistics competence (using grammar, vocabulary, phonetics), socio-cultural competence (using expressions in a context of communication), strategic competence (solving problems in a communication process), and forming discourse competence (using tools to form discourse).

As stated in the previous paragraphs, one of the linguistics competences that the students have to master is grammar. Grammar is one of some components that is very important. Students are intended to master grammar because they cannot communicate using English clearly without mastering its grammatical rule. As a consequence, there will be misunderstanding between the speaker and the hearer. As Leech (1982: 4) states that the meaning of a message conveyed by language has to be converted into words put together according to grammatical rules, and these words are then conveyed by sound. In addition, grammar is the central component of language which relates phonology and semantics, or sound and meaning (Leech 1982: 4). Moreover, Hornby (1995: 517) states that grammar is the rules in a language for changing the form of words and combining them into

sentences. It is clear that grammar is very important in order to make correct and acceptable sentences in communication. The basic knowledge of grammar that is taught in the seventh grade of junior high school is about tenses. Declerck (2006: 100) states that in the interpretation of tense based on the form of the verb there are only two tenses: a present and a past tense. Each of which is marked by different forms in lexical verb itself or in the auxiliary used. By recognizing the difference between present and past construction, the speaker and the listener can communicate clearly. By recognizing the forms of the present and past tense sentences, students can improve their understanding of English textbook and they can also produce present and past tense sentences in appropriate context.

The students start learning simple present tense in an elementary school as a local subject. It is hoped that the graduation from elementary school can master a useful ability in order to prepare them studying English in junior high school. This ability is an interaction ability using English to support school and class activity. English education in elementary school is intended to develop linguistics ability which is used for accompanying action. Students continue their study of simple present tense in seventh grade of junior high school. Simple present tense is taught in four skills; these are listening, speaking, reading, and writing. In a speaking skill, students sometimes have problems in making correct structure of sentences which make unacceptable meanings. Hence, the teacher has to give an interesting technique in teaching this tense since it is the first time they learn it. Here the writer proposes single slot substitution drills as an alternative technique of teaching simple present tense.

## 5.2 Reasons for Choosing the Topic

According to school-based curriculum, grammar is taught as a secondary competence which is included in four skills, listening, speaking, reading, and writing. It means that grammar is not the main material that should be mastered by students although it is a crucial factor in studying English. Grammar is learnt along with dialog (transactional and interpersonal conversation), short functional text, and monolog text. Unfortunately, sometimes students face some problems in studying grammar. Teaching method helps the teacher and students to solve this problem. In this case, I choose single slot substitution drills as the method. To specify, I have chosen simple present tense as the object of the study. Therefore, some reasons for choosing the topics are given.

First, single slot substitution drills which are used as a teaching technique is a kind of drills in audio-lingual method. According to Larsen-Freeman (2000: 48) in single slot substitution drills the teacher says a line, usually from the dialog. By using this technique, students will learn grammar through dialog. Dialog is closely related to the students' daily life. Students can express their feeling, opinion, and thoughts using dialog. So, I assume that single slot substitution drills can be used as an alternative technique in teaching simple present tense.

Second, single slot substitution drills can be easily applied to a grammar orally and directly because Larsen-Freeman (2000: 48) states that in single slot substitution drills the teacher says a word or a phrase called the cue. The students repeat the line the teacher has given them, substituting the cue into the line and its

proper place. Considering the time allotment for English subject in junior high school is quite limited, it is important to choose an effective technique. What I mean as an effective technique is that the teachers do not take a lot of time in teaching materials of study. In addition, the technique should ease the students to learn the material. I believe that single slot substitution drills fulfill those requirements. I hope after the treatment by using single slot substitution drills, the students will try to explore the use of this technique in studying grammar.

Third, I choose simple present tense as an ability that is treated because I assume that the seventh grade students' mastery in using simple present tense, especially in SMP Negeri 1 Bawang, needs to be developed.

Forth, I have chosen simple present tense as an object of the study because based on School-Based Curriculum, the seventh grade students of junior high school have to master grammar, including simple present tense as a secondary competence.

Fifth, by using single slot substitution drills, I expect that the result of this study will be useful for both the teacher and readers to improve their ability in teaching, especially in the use of teaching technique.

Sixth, I hope that the result of this study will be a motivation and variation for the students in learning English. Finally, it will lead them to a better result of studying English in general.

### 1.3 Statement of the Problems

Statements of the problem discussed in this study are as follow:

- (1) To what extent do the single slot substitution drills contribute to the development of the mastery in simple present tense of the seventh grade students of SMP Negeri 1 Bawang in the academic year of 2010/2011?
- (2) To what extent do the single slot substitution drills contribute to the development of the positive attitude in using simple present tense of the seventh grade students of SMP Negeri 1 Bawang in the academic year of 2010/2011?

### 1.4 Objectives of the Study

The objectives of the study are:

- (1) To find out to what extent the single slot substitution drills contribute to the development of the mastery in simple present tense of the seventh grade students of SMP Negeri 1 Bawang in the academic year of 2010/2011.
- (2) To find out to what extent the single slot substitution drills contribute to the development of the positive attitude in using simple present tense of the seventh grade students of SMP Negeri 1 Bawang in the academic year of 2010/2011.

## 1.5 Significance of the Study

Significance of this study is classified into three parts, for the students, teachers, and the readers.

For students, this study is intended to give information about the use of single slot substitution drills as a technique in learning present tense. It is hoped that they will be motivated to learn simple present tense because single slot substitution drills allow them to practice using simple present tense directly. So, they can both learn and practice at the same time. It is also expected that by using this technique, they can master simple present tense. Furthermore, the study hopefully would be useful for them in communication and writing a text using simple present tense.

For the English teacher, this study informs that there is a technique which is easily replicated, applied, and adapted to a variety of setting. This technique is single slot substitution drills. It is hoped that by knowing single slot substitution drills, they will be able to use this technique to teach their students as a comparison matter to the previous technique they have ever used in order to find the best technique to teach simple present tense.

For other readers, it will show that there is a technique of teaching simple present tense called single slot substitution drills.

## 1.6 Limitation of the Study

This study is an action research which uses single slot substitution drills as a teaching technique. This drill is one kind of drills in audio-lingual method which enables students to change the slot of the sentence with another word. This study is purposed to know the contribution of single slot substitution drills to the development of the mastery and positive attitude in using simple present tense of the seventh grade students of SMP Negeri 1 Bawang in the academic year of 2010/2011. Therefore, the result of this study is applied for them.

## 1.7 Outline of the Report

This final project is divided into five chapters. Each of them can be explained as follows:

The first chapter is about *introduction*, which consists of background of the study, reasons for choosing the topic, statement of the problem, objectives of the study, significance of the study, limitation of the study, and outline of the study.

The second chapter presents *review related literature*, which is about review of the previous study, review of the theoretical study, General concept of audio-lingual method, definition of audio-lingual method, principles of audio-lingual method, drill, types of drill, single slot substitution drills, types of single slot substitution drills, the teaching learning process using single slot substitution drills, the use of drill in teaching grammar, grammar, the definition of grammar,

the important of learning grammar, the simple present tense, description of form, the use of the simple present tense, and the theoretical framework.

The third chapter gives *methods of investigation*, which contains data collection, population and sample, research instrument, scoring technique, procedure of the study, data analysis.

The fourth chapter presents *data analysis and discussion*. Finally, this is ended with *conclusion and suggestion* in the fifth chapter.

## **CHAPTER II**

### **REVIEW OF RELATED LITERATURE**

This chapter contains three sections. The first section presents the previous study related to this topic. This is then followed by the second section that talks about the theoretical reviews underlying this study. The last section describes the theoretical framework which is used as the basis of this study.

#### **2.1 Review of the Previous Study**

Review of the previous study consists of some researches which were conducted in this area. They can be used as references in this study.

First, Nusaningtyas (2005) conducted a research about using game in teaching simple present tense entitled “The effectiveness of Using Activity Dominoes to Teach simple present tense to Junior High School Students (The Case of the Seventh Class Students of SMP Negeri 2 Pekalongan).” Nusaningtyas concluded that using activity dominoes in developing students’ mastery of simple present tense is more effective than without activity dominoes. Moreover, Mills (2007) from Oakland City University conducted a research in the area of grammar entitled “Does Using an Internet Based Program for Improving Student Performance in Grammar and Punctuation Really Work in a College Composition Course?” Mills proved that using the internet based program had improved students’ grammar and punctuation skill and students would feel more confident taking the English competency test because of using the program. In addition,

Afiani (2008) did a research entitled “The Effectiveness of Using Still Pictures in Teaching simple present tense (A Case Study of the Fifth Grade Students of SDN II Bugel Grobogan in the Academic Year of 2008-2009).” Afiani summarized that there is a positive significant improvement of students’ learning achievement in simple present tense after being taught using still pictures. Besides, Pertiwi (2010) conducted a research about using another game entitled “The Effectiveness of Board Game to Develop Students’ Grammar Mastery of simple present tense (An Experimental Research at the Eighth Grade Students of SMP Negeri 3 Demak in the Academic Year of 2010/2011).” Pertiwi concluded that using board game in developing students' mastery of simple present tense is more effective than without board game.

To my knowledge there is still an area of studies that has not been explored related to teaching grammar, that is, the use of single slot substitution drills in teaching simple present tense.

## **2.2 Review of the Theoretical Study**

The second section gives the brief description of audio-lingual method, general concept of audio-lingual method, definition of audio-lingual method, principles in audio-lingual method, drill, types of drill, single slot substitution drills, types of single slot substitution drills, teaching and learning process using single slot substitution drills, grammar, definition of grammar, the importance of learning grammar, simple present tense, description of form, and the use of simple present tense.

## **2.2.1 General Concept of Audio-lingual Method**

Audio-lingual method is a method of teaching a second language. It was first used in a World War II as a method to develop foreign language programs for military personnel. The objective of this program was to attain conversational proficiency in a variety of foreign languages. The audio-lingual method is designed to teach students to be able to master a variety of foreign languages (Richards, 1986: 44). Hence, audio-lingual method is a method which firstly used in World War II to teach students in mastery a variety of foreign languages.

### ***2.2.1.1 Definition of Audio-lingual Method***

According to Larsen-Freeman (2000: 35), audio-lingual method is an oral-based approach. It does not only emphasize on vocabulary acquisition through exposure to its use in situation, but also drills students in the use of grammatical sentence patterns.

The audio-lingual method is a style of teaching used in teaching foreign languages. It does not focus on teaching vocabulary. Rather, the teacher drills students in the use of grammar. ([http://en.wikipedia.org/wiki/Audio-lingual\\_method](http://en.wikipedia.org/wiki/Audio-lingual_method)).

Furthermore, the goal of audio lingual method is students can use the target language communicatively (Larsen-Freeman, 2000: 45). Drilling is a central technique in audio lingual method (Richards, 1986: 67).

From all definitions above, the writer concludes that audio-lingual method is an oral-based approach which focuses on drilling students in the use of grammar of foreign languages.

### ***2.2.1.2 Principles of Audio-lingual Method***

Larsen-Freeman (2000: 45) states that there are nine principles of audio-lingual method as follows:

#### ***(1) The goal of the teacher***

Teachers want their students to be able to use the target language communicatively. In order to do this, they believe students need to over learn the target language, to learn, to use it automatically without stopping to think. Their students achieve this by forming new habits of their native language.

#### ***(2) The role of the teacher***

The teacher is like an orchestra leader, directing and controlling the language behavior of his /her students. He/she is also responsible for providing her students with a good model for imitation. Students are imitators of the teacher's model or the tapes he/she supplies of model speakers. They follow the teacher's direction and respond as accurately and as rapidly as possible.

#### ***(3) Characteristics of the teaching and learning process***

New vocabulary and structural patterns are presented through dialogs. The dialogs are learnt through imitation and repetition. Drills (such as repetition, backward build-up, chain, substitution, transformation, and question-and-answer) are conducted based upon the patterns present in the dialog. Students' successful

responses are positively reinforced. Grammar is introduced from the examples given, explicit grammar rules are not provided. Cultural information is contextualized in the dialogs or presented by the teacher. Students' reading and writing work are based upon the oral work they did earlier.

*(4) Nature of student-teacher interaction and nature of student-student interaction*

There is student-to-student interaction in chain drills or when students take different roles in dialog, but this interaction is teacher directed. Most of the interaction is between teacher and students and is initiated by the teacher.

*(5) View of language and culture of language*

The view of language in the audio-lingual method has been influenced by descriptive linguists. Every language is seen as having its own unique system. The system is comprised of several different levels: phonological, morphological, and syntactic. Each level has its own distinctive patterns.

Everyday speech is emphasized in the audio-lingual method. The level of complexity of the speech is graded, however, so that beginning students are presented with only simple patterns. Culture consists of the everyday behavior and lifestyle of the target language speakers.

*(6) Area of language and language skills*

Vocabulary is kept to minimum while the students are mastering the sound system and grammatical patterns.

The natural order of skills presentation is adhered to: listening, speaking, reading, and writing. The oral/aural skills receive most of the attention. What students write they have first been introduced to orally. Pronunciation is taught

from the beginning, often by students working in language laboratories on discriminating between members of minimal pairs.

From the statements above, it can be concluded that in audio-lingual method, the area of language emphasizes in mastery of sound system and grammar. In addition, it also emphasizes four skill; listening, speaking, reading, and writing. But, listening and speaking receive most of the attention.

*(7) Role of students' native language*

The habits of the students' native language are taught to interfere with the students' attempts to master the target language. Therefore, the target language is used in the classroom, not the students' native language. A contrastive analysis between the students' native language and the target language will reveal where a teacher should expect the most interference.

*(8) Accomplishment of evaluation*

Students might be asked to distinguish between words in a minimal pair, for example, or to supply an appropriate verb form in the sentence.

*(9) Teacher's respond to student errors*

Student errors are to be avoided if at all possible through the teacher's awareness of where the students will have difficulty and restriction of what they are taught to say.

### **2.2.2 Drill**

A drill is a classroom technique used to practice new language. It involves the teacher modeling a word or a sentence and the learners repeating it. Hornby

(1995: 355) states that drill is trained or trains somebody thoroughly by means of regularly repeated exercises.

Furthermore, drill is a method of teaching technique used for practicing sound or sentence patterns concerned with the fixation of specific association for automatic recall. (<http://ayoellg.wordpress.com/2009/03/30/drills-in-teaching/>)

### ***2.2.2.1 Types of Drill***

Richards (1986: 53) say that dialogues and drills form are the basis of audio-lingual classroom practices. In addition, Brooks cited by Richards (1986: 54) states that the use of drills and pattern practice is a distinctive feature of the audio-lingual method. Various kinds of drills used include the following:

(1) *Repetition*: The student repeats an utterance aloud as soon as he has heard it. He does this without looking at a printed text. The utterance must be brief enough to be retained by the ear.

(2) *Inflection*: One word in an utterance appears in another form when repeated.

(3) *Replacement*: One word in an utterance is replaced by another.

(4) *Restatement*: The student rephrases an utterance and addresses it to someone else, according to instructions.

(5) *Completion*: The student hears an utterance that is complete except for one word, then repeats the utterance in complete form.

(6) *Transposition*: A change in word order is necessary when a word is added.

(7) *Expansion*: When a word is added it takes a certain place in the sequence.

(8) *Contraction*: A single word stands for a phrase or clause.

(9) *Transformation*: A sentence is transformed by being made negative or interrogative or through changes in tense, mood, voice, aspect, or modality.

(10) *Integration*: Two separate utterances are integrated into one.

(11) *Rejoinder*: The student makes an appropriate rejoinder to a given utterance.

(12) *Restoration*: The student is given a sequence of words that have been culled from a sentence but still bear its basic meaning

In addition, Larsen-Freeman (2000: 47) also state that there are several kinds of drill techniques used in audio-lingual method:

(1) *Dialog memorization*

Dialog or short conversations between two people are often used to begin a new lesson. Students memorize the dialog through mimicry; students usually take the role of one person in the dialogue, and the teacher the other. After the students have learned the one person's line, they switch roles and memorize the other person's part. Another way of practicing the two roles is for half of the class to take one role and the other to take the other. After the dialogue has been memorized, pairs of individual students might perform the dialog for the rest of the class.

In the audio-lingual method, certain sentence patterns and grammar points are included within the dialog. These patterns and points are later practiced in drills based on the lines of the dialog.

(2) *Backward build-up (expansion) drill*

This drill is used when a long line of a dialogue is giving students trouble. The teacher breaks down the line into several parts. The students repeat a part of the

sentence, usually the last phrase of the line. Then, following the teacher's cue, the students develop what they are repeating part by part until they are able to repeat the entire line. The teacher begins with the part at the end of the sentence (and works backward from there) to keep the intonation of the line as natural as possible. This also directs more student attention to the end of the sentence, where new information typically occurs.

*(3) Repetition drill*

Students are asked to repeat the teacher's model as accurately and as quickly as possible. This drill is often used to teach the lines of the dialog.

*(4) Chain drill*

A chain drill gets its name from the chain of conversation that forms around the room as students, one by one, ask, and answer questions of each other. The teacher begins the chain by greeting a particular student, or asking him a question. That student responds, and then turns to the student sitting next to him. The first student greets or asks a question of the second student and the chain continues. A chain drill also gives the teacher an opportunity to check each student's speech.

*(5) Single-slot substitution drill*

The teacher says a line, usually from the dialog. Next, the teacher says a word or a phrase-called the cue. The students repeat the line the teacher has given them, substituting the cue into the line in its proper place. The major purpose of this drill is to give the students practice in finding and filling in the slots a sentence.

*(6) Multiple-slot substitution drill*

This drill is similar to the single-slot substitution drill. The difference is that the teacher gives cue phrases, one at a time, which fit into different slots in the dialog line. The students must recognize what part of speech each cue is, or at least, where it fits into the sentence, and make any other changes, such as subject-verb agreement. They then say the line, fitting the cue phrase into the line where it belongs.

*(7) Transformation drill*

The teacher gives students a certain kind of sentence pattern, an affirmative sentence for example. Students are asked to transform this sentence into a negative sentence. Other examples of transformations to ask of students are changing a statement into a question, an active sentence into a passive one, or direct speech into reported speech.

*(8) Question-and-answer drill*

This drill gives student practice with answering questions. The students should answer the teacher's questions very quickly. Although we did not see it in our lesson here, it is also possible for the teacher to cue the students to ask questions as well. This gives students practice with the question pattern.

*(9) Use of minimal pairs*

The teacher works with pairs of words which differ in only one sound; for example, 'ship/sheep.' Students are first asked to perceive the difference between the two words and later to be able to say the two words. The teacher selects the

sounds to work on after she has done a contrastive analysis, a comparison between the students' native language and the language they are studying.

*(10) Complete dialog*

Selected words are erased from a dialog students have learned. Students complete the dialog by filling the blanks with the missing words.

*(11) Grammar game*

The games are designed to get students to practice a grammar point within a context. Students are able to express themselves, although it is rather limited in this game. Notice there is also a lot of repetition in this game.

**2.2.2.2 Single Slot Substitution Drills**

Single slot substitution drills is one kind of drill which is used in audio-lingual method. A substitution drill is a classroom technique used to practice new language. It involves the teacher first modeling a word or a sentence and the learners repeating it. The teacher then substitutes one or more key words, or changes the prompt, and the learners say the new structure. (<http://www.teaching-english.org.uk/think/knowledge-wiki/substitution-drill>)

This drill enables students to master grammar since it is done by changing noun, verb, object, or adverb. Moreover, it may replace a word of the model sentence with a pronoun or number, and make some the necessary change. (<http://ayoellg.wordpress.com/2009/03/30/drills-in-teaching/>)

According to Larsen-Freeman (2000: 48), in single slot substitution drills the teacher says a line, usually from the dialog. Next, the teacher says a

word or a phrase called the cue. The students repeat the line the teacher has given them, substituting the cue into the line and its proper place.

Furthermore, in single slot substitution drills, the teacher says a line from the dialog and then the teacher says another word (known as a "cue"). The students must repeat the line from the dialog, substituting the cue word. The teacher most often would use pictures to help with the meaning of the cue words. (<http://newterra.chemeketa.edu/faculty/Education/ed257/week7/intro.htm>). Based on statements above, this drill can be used as an alternative technique in teaching grammar orally and the use of picture will ease students to understand the meaning of the cue.

The major purpose of single slot substitution drills is to give the students practice in finding and filling in the slots of a sentence (Larsen-Freeman, 2000: 48). Hence, this drill is used to practice finding appropriate words to fill the slots to make sentences grammatically correct.

Moreover, another aim of single slot substitution drills is to enable the learners to begin to assimilate the structure and the variation in a single frame. It enables him to recognize and use the class of segments that can fit into a particular frame. In the single slot substitution drills the teacher presents the basic structure that needs to be practiced by the learners. A cue word to substitute in a slot is given and the learner is expected to give the new sentence retaining the same pattern. (<http://www.ciil-ebooks.net/html/drills/ch2.htm>)

### 2.2.2.3 Types of Single Slot Substitution Drills

Below are types of single slot substitution drills:

#### (1) Adjectives substitution

Teacher : Sita is a good girl

Cue : 'bad'

Students : Sita is a bad girl

Cue : 'beautiful'

Students : Sita is a beautiful girl

#### (2) Pronouns and subjects substitution

Teacher : 'He reads a lesson'

Cue : 'she'

Students : 'She reads a lesson'

Cue : 'they'

Students : 'They read a lesson'

Teacher : 'Kishore is playing at home'

Cue : 'Rama'

Students : 'Rama is playing at home'

Teacher : 'He writes a good book'

Cue : 'Sita'

Students : 'Sita writes a good book'

#### (3) Verbs substitution

Teacher : 'Kishore is playing'

Cue : 'work'

Students : 'Kishore is working'

Teacher : 'He reads a novel'

Cue : 'writes'

Students : 'He writes a novel'

*(4) Object substitution*

Teacher : 'He writes a novel'

Cue : 'story'

Students : 'He writes a story'

*(5) Adverbs substitution*

Teacher : 'There are many people in the office'

Cue : 'in the cinema hall'

Students : 'There are many people in the cinema hall'

Cue : 'in the class',

Students : 'There are many people in the class'

Cue : 'in the house',

Students : 'There are many people in the house'

(<http://newterra.chemeketa.edu/faculty/Education/ed257/week7/intro.htm>)

**2.2.2.4 Teaching and Learning Process Using Single Slot Substitution Drills**

Cokely (1991: 1) states that Single slot substitution drills requires both class (C) and individual student (S) response. As such, it is a good way for the teacher to get feedback on individual student performance while still involving the class.

The teaching learning processes using this drill are:

First, in a Single slot substitution drills, one item or slot is chosen by the teacher and the students go through a process of replacing or substituting other items in that slot, e.g.:

T : Yesterday arrive home, tired

C : Yesterday arrive home, tired

T : angry

S1 : Yesterday arrive home, angry

C : Yesterday arrive home, angry

T : hungry

S2 : Yesterday arrive home, hungry

C : Yesterday arrive home, hungry

Etc.

Second, this drill should also move quite quickly. If the teacher notices a student (e.g. S1) has a problem either in production of the sentence or in where to make the appropriate substitution, the teacher should sign the full sentence with the appropriate substitution so that the student can imitate. Then the teacher should signal the class to imitate. Later in the drill, the teacher may wish to call on that student again.

Third, in writing a single slot substitution drills, the teacher should make sure that the cues (the words used to substitute) are clear and unambiguous. For example, in the English sentence 'Girls like sports', the cue 'boys' is not clear because a student could respond either 'Boys like sports' or 'Girls like boys'. Both choices are correct, but the teacher may not have wanted or expected one of

them. Such ambiguity can be confusing to students. In mechanical drills there should only be one correct, logical response.

Finally, the last substitution should result in the same sentence that was used to start the drill. This helps the teacher and the students to know when the drill with that sentence is finished. It also prevents one sentence from being over-used (generally 8-10 substitutions per sentence are sufficient). The target sentence may be chosen from a dialogue or in some other way related to other class activities.

#### ***2.2.2.5 The Use of Drill in Teaching Grammar***

Drill can be used as a technique in teaching grammar as Thornbury (1999: 95) states that grammar practice is often associated with drilling.

Drilling is easy to do, once students are used to it and the teacher has mastered a few basic techniques such as giving clear indication as to when an individual student response, as opposed to a class one, is required. In addition, drilling is one of the easiest techniques to learn (Thornbury 1999: 96).

Thornbury (1999: 96-97) also mentions there are some advantages of using drill in teaching grammar. First, drill is an economical way of practicing grammar, since it requires little effort of the teacher but quite a lot on the part of the students, especially if the drill is of the variable substitution type. Second, drill allows the teacher to attend very closely to the accuracy of students' responses. Third, drilling has wide applicability, in that almost anything can be drilled.

Finally, drills are traditionally associated with accuracy practice and typically follow close on the heels of grammar presentation.

### **2.2.3 Grammar**

#### ***2.2.3.1 Definition of Grammar***

Grammar is the rules in a language for changing the form of words and combining them into sentences (Hornby, 1995: 517). Moreover, Gerot (1994: 2) states that grammar is a theory of language, of how language is put together and how it works. Thus, grammar is a rule of putting words to make sentences and how it works.

Grammar guides people how to speak and write correctly. Cook (1980: 1, 2) state that grammar is a set of rules by which people speak and write. Grammar is a written description of the rules of a language. Since people know the grammar of their language, they know how to construct sentences or utterances in understandable forms. Thornbury (1999: 1) states that grammar is partly the study of what forms (or structures) are possible in a language. Besides, Leech (1982: 3) states that grammar is the mechanism according to which language works when it is used to communicate with other people. Thus, a grammar is a description of the rules that govern how a language's sentences are formed to use in communication.

### ***2.2.3.2 The Importance of Learning Grammar***

Having known the definition of grammar, it is not hard for us to understand why grammar is very useful and important. By using grammar, they can communicate and understand each other and otherwise, they would never know. Leech (1982: 4) states that grammar is a central part of language which relates sound and meaning. The meaning of a message conveyed by language has to be converted into words put together according to grammatical rules and these words are then conveyed by sound.

Grammar affects the performance in all four skills: listening, speaking, reading, and writing (Celce-Murcia 1983: 2). It can be said that grammar is very useful in a language and it cannot be separated from its skills, if one can use grammar correctly, he can master all of skills. It is clear that grammar is very important and useful because grammar is a part of language.

### ***2.2.3.3 Simple Present Tense***

English has two time system, those are present tense and past tense such as *I go to school every day* and *She wrote a letter yesterday*. In the first sentence, the action is repeated occurrence and is expressed in the present tense and the second one is a past action and is expressed in the past tense.

Nilson (1984: 151) says that simple present tense is a verb used to show an action that takes place in the present, or an action that is repeated regularly, or a condition that is true at any time. In addition, Murphy (1985: 4) states that simple

present tense is used to talk about things is general and something happens all the time or repeatedly, or that something is true in general.

#### ***2.2.3.4 Description of Form***

The simple present tense is formed by using a simple verb. Nilson (1984: 151) says that the form the present tense of the verb, use the infinitive form or adds –s or –es to the infinitive. When a third person singular is present, an –s or –es will be added in the end of the verb. In addition Cook (1980: 85) say that every simple present tense verb must carry the suffix –s when it has a third person singular subject. Whenever the present tense verb has a subject other than the third person singular, no suffix is added.

The rules of subject-verb agreement can be seen as follows:

Person	1 <sup>st</sup> form	2 <sup>nd</sup> form	3 <sup>rd</sup> form
Singular	I write a letter	You write a letter	She writes a letter
Plural	We write letters	You write letters	They write letters

From the table above, the rules of subject-verb agreement are singular subject requires a singular verb and plural subject requires a plural verb. An ending –s or –es is usually used to sign a third person singular.

According the statement above, there is an agreement in a singular and plural sentence in a form of subject-verb.

The sentences below show the agreement:

Singular	Plural
- The book <i>is</i> very thick.	- The books <i>are</i> very thick.
- The child plays football.	- The children play football.
- She goes to school.	- We go to school.

*To be* may be used in a simple present tense. The verb *be* that is used are: *is*, *am*, and *are*. The function of *be* is to announce the subject of a sentence and introduce and join it to an adjective or noun or equivalent of one or two some of these, to describe states which are in the existence right now. As in the sentences, *The boy sits on the bench* and *He is a student*. The first sentence describes a state in which the subject is in existence right now, the second one is to join *He* with an adjective.

According to Murphy (1997: 10), the rules of *be* agreements are followed:

Positive	Negative
I am (I'm)	I am not (I'm not)
He } (he's)	He } (he's not or he isn't)
She } is (she's)	She } is not (she's not or she isn't)
It } (it's)	It } (it's not or it isn't)
We } (we're)	We } (we're not or we aren't)
You } are (you're)	You } are not (you're not or you aren't)
They } (they're)	They } (they're not or they aren't)

According to Murphy (1997: 20) the rules of verb agreement are followed:

Positive		Negative		
I	<b>work</b>	I		
we	<b>like</b>	we	<b>do not</b>	
you	<b>do</b>	you	<b>(don't)</b>	work
they	<b>have</b>	they		like
he	works	He		do
she	likes	she	<b>does not</b>	have
it	does	it	<b>(doesn't)</b>	
	has			

We use do/does in present simple questions (Murphy 1997: 22)

Positive		Question		
I	<b>work</b>	I		
we	<b>like</b>	we		
you	<b>do</b>	<b>Do</b>	you	<b>work?</b>
they	<b>have</b>		they	<b>like?</b>
he	works		he	<b>do?</b>
she	likes		she	<b>have?</b>
it	does	<b>Does</b>	it	
	has			

**Do/does** + *subject* + *infinitive*

	<b>Do</b>	You	<b>work</b>	in the evening?
	<b>Do</b>	your friends	<b>live</b>	near here?
	<b>Does</b>	Chris	<b>play</b>	tennis?
Where	<b>do</b>	your parents	<b>live?</b>	
How often	<b>do</b>	you	<b>wash</b>	your hair?
What	<b>does</b>	this word	<b>mean?</b>	
How much	<b>does</b>	it	<b>cost</b>	to fly to rome?

Question with **always/ usually/ often**:

	<b>Do</b>	you	<b>Always</b>	<b>have</b>	breakfast?
	<b>Does</b>	Chris	<b>Often</b>	<b>play</b>	tennis?
What	<b>do</b>	You	<b>usually</b>	<b>do</b>	at weekends?

*Short answers*

Yes,	I/we/you/they	<b>do.</b>
	He/she/it	<b>does.</b>
No,	I/we/you/they	<b>don't.</b>
	He/she/it	<b>doesn't.</b>

### 2.2.3.5 *The Use of Simple Present Tense*

According to Praninkas (1961: 2) the present forms of *be* express facts about the present or all-time truths. *Be* always expressed in these situations in English.

#### a. *Profession, trade, occupation*

Example : Mr. Allen is a professor.

Mrs. Allen is a housewife.

#### b. *Nationality*

Example : Mr. Allen is American.

George is Greek.

#### c. *Size and shape*

Example : Mr. Allen is tall.

Mrs. Allen is thin.

The class is small.

#### d. *Age*

Example : Jack is twenty-one.

#### e. *Characteristics*

Example : Mr. Allen is clever.

Mrs. Allen is ambitious.

#### f. *Condition*

Example : Jack is sick.

Mr. Allen is well.

g. *Place*

Example : The students are here.

Mr. Allen is there.

h. *Color*

Example : This page is white.

Besides, according to Alter (1992: 36), simple present tense does not refer to present time alone. We can show actions in the past and future as well. We can use this tense:

(1) To express a habitual action with adverbs like usually, always, often, etc.

Example:

a) I usually *drink* milk and eat bread in the morning.

b) They often *play* football together.

c) She always *takes* a bus to work.

(2) To state a general truth.

Example:

The moon *goes* around the earth while the earth itself *revolves* round the sun.

(3) To express future action, especially with verbs of movement or travel such as *come, go, leave, stay, or arrive*.

Example:

a) He *departs* on Monday morning and *arrives* here on Tuesday night.

b) When she *comes*, tell her about it.

(4) In commentaries on games and plays.

Example:

- a) He *takes* the shuttlecock and *sends* it high above the net.
- b) Lady Jane *hurries* but her heel *gets* caught in the carpet on the stairs.

(5) In exclamation, announcement or demonstrations.

Example:

- a) Here *comes* the bus! (exclamation)
- b) The cook *measures* a hundred grams of flour and *mixes* it with some sugar.  
( a demonstration)
- c) She *puts* sugar in a cup and *stirs* it slowly. (demonstration)

### 2.3 Theoretical Framework

In this study, I chose seventh grade students of SMP N 1 Bawang, Batang as the subject of my study. I did a research in the area of simple present tense and used single slot substitution drills as a teaching technique. I wanted to know what extent the single slot substitution drills contributed to the development of the mastery and the positive attitude in using simple present tense of the seventh grade students of SMP Negeri 1 Bawang in the academic year of 2010/2011.

Hence, I used an action research to get the answer since action research can be used to know how well the students learn as Mills (2000: 7) states that action research is any systematic inquiry conducted by teacher researchers, principals, school counselors, or other stakeholders in the teaching/learning environment, to gather information about the ways that their particular schools operate, how they

teach, and how well their students learn. According to Kemmis (1990) cited in Mills (2000: 17), action research consists of cycles. Every cycle consists of four steps; planning, acting, observing, and reflecting. I used two cycles in this study those are cycle 1 and cycle 2.

Before I conducted the cycles, I had prepared the instrument of collecting data. I used multiple choice items to test the students' mastery in simple present tense and questionnaire to test the students' attitude towards simple present tense. First, I did try out in multiple choice items instrument to select good items. After that, I asked students to do a pre-test and first questionnaire, and then I continued with cycle 1; planning, acting, observing, and reflecting. The weaknesses from cycle 1 were repaired in cycle 2. I still used the same steps; planning, acting, observing, and reflecting. Finishing those steps, I asked students to do post-test and second questionnaire. Finally, I used Heaton and Brown criteria as a method of analyzing data of multiple choice test items and questionnaire.

## **CHAPTER III**

### **METHOD OF INVESTIGATION**

This chapter consists of research design, cycle 1, cycle 2, subject of the study, population, sample, instrument for collecting the data, tests, construction of instrument, pre-test, formative test, post-test, questionnaires, procedures of collecting data, try out, validity, reliability, difficulty level, method of analyzing data, method of scoring the test, level of achievement, and method of analyzing questionnaire.

#### **3.1 Research Design**

In conducting this study, I used classroom action research. Action research is any systematic inquiry conducted by teacher researchers, principals, school counselors, or other stakeholders in the teaching/learning environment, to gather information about the ways that their particular schools operate, how they teach, and how well their students learn (Mills 2000: 7). Furthermore, Nunan (1990: 64) states that action research contributes to professional development, particularly in encouraging self-directed teachers, who are capable, through action research, of furthering their own professional self-development.

According to Kemmis (1990) cited in Mills (2000: 17), action research consists of cycles. Every cycle consists of four steps; planning, acting, observing, and reflecting. The design was presented as follows:

### 3.1.1 Cycle 1

#### (1) Planning

It was the first step in doing an action research. This step was about the activity of problem identification. It was the most important step in conducting action research as by knowing the problems the writer could find a solution to solve the problem. This plan was used to get the optimum result. In doing this activity, I found an educational institution to conduct an action research. I decided to conduct this research in SMP N I Bawang, Batang after asking permission to its headmaster. I chose this school because based on my observation; the students' mastery in simple present tense was still low. Moreover, they got confused in adding s/es in sentences with singular noun. After that, I prepared lesson plan. I

also prepared some word cues that would be used in teaching simple present tense. Finishing those activities, I continued to prepare the materials used to explain simple present tense. I ended off this step by preparing the instrument to measure the students' mastery of the material.

### (2) Acting

The second step is acting. It is the implementation of planning. The purpose was tried to find out the solution to solve the problem faced by the students during the teaching learning process. In this section, I held several activities that I had planned. I gave students some dialog using expression of *like*, *dislike*, *asking*, *giving opinion*, and *asking clarification*. Next, I asked them to repeat the dialog after me. Then, I took a sentence from the dialog which used simple present tense and wrote it in the white board. In this part, I used single slot substitution drill technique. In this technique, I asked students to change subject, verb, object, adverb, and adjective with the cue I gave to them orally. Afterwards, I asked the student one by one to change the sentence based on the cue I gave to them. In knowing the students' progress, I gave the students an assessment test.

### (3) Observing

This section is used to observe the students' response during the teaching learning process whether or not they made some progress while teaching learning process. In this section, I observed all the events or activities during the research by watching the teaching learning process carefully. Observation was needed to plan a further strategy or to revise planning which would be applied in the next cycle. There were some aspects that should have been observed. They were students'

enthusiasm during the lesson, the students' response to the lesson, the mastery of the students in doing exercise and their achievement in the simple present tense.

#### (4) Reflecting

The last step is evaluating the steps of the teaching learning process whether needed to be improved or not in order the result was satisfied. In this step, I tried to inspect the students' progress in simple present tense. Not only to know the students' progress, reflecting was also used to analyze some problems that have not been solved. In short, the purpose of reflecting is to revise the plan for the next cycle.

### 3.1.2 Cycle 2

#### (1) Planning

After analyzing cycle 1, I designed a lesson plan for cycle 2. Moreover, I also prepared some cues and pictures. Finally, I set up the instrument to measure the students' mastery in simple present tense.

#### (2) Acting

Basically, the action in this cycle was not significantly different. First, I gave students with a descriptive text. After that I took a sentence using simple present tense and wrote it in the white board. Same as the cycle 1, I asked students to change the subject, verb, and object with the cue. Then, I asked them one by one to change the subject based on the cues I gave to them orally. Finally, I gave them an assessment to know the students' progress.

### (3) Observing

It was an activity in which I analyze and collecting the result of the action by collecting the result of the test, calculating the students' scores and the mean of the scores. It was intended to know to what extent the result of cycle 2 reached the objective.

### (4) Reflecting

It was an activity which was purposed to find out significant progress of cycle 1 and cycle 2. Furthermore, it was the time to analyze the result of questionnaire.

## **3.2 Subject of the Study**

### **3.2.1 Population**

Tuckman (1978: 227) defined —population is group about which the researcher is interested in gaining information and drawing conclusion. Moreover, the encyclopedia of educational evaluation as quoted by Arikunto (2006: 130) said that —population is a set (or collection) of all elements possessing one or more attributes of interest. In this study, I chose the seventh grade students of SMP Negeri I Bawang in the academic year 2010/2011. I chose the seventh grade because based on School-Based Curriculum, simple present tense was taught in this grade as a secondary competence.

### **3.2.2 Sample**

Tuckman (1978: 226) said that —sample is a representative of the population to serve as respondents. Furthermore, Saleh (2001: 33) stated that sample is a group

of human, things, or matters where data are taken. Besides, Arikunto (2006: 131) defined sample as a limited number of elements selected from the population to be representative of that population. In this study, I selected a group of students from the population as the sample. In SMP Negeri I Bawang, there were six classes of the seventh grade. In choosing the sample, I used simple random sampling technique. Firstly, I wrote the entire seventh grade classes in some pieces of paper. Then randomly I took a piece of paper. Based on simple random sampling technique, I got class VII C of SMP Negeri 1 Bawang as the sample.

### **3.3 Instrument for Collecting the Data**

Instrument was an important device for collecting the data. In this study, to collect the data I would like to use two instruments. The instruments were test and questionnaire.

#### **3.3.1 Tests**

Brown (2004: 3) defines —test as a method of measuring a person’s ability, knowledge, or performance in a given domain. It is an instrument--a set of techniques, procedures, or items—that requires performance on the part of the test-taker. Types of tests are multiple choice, matching, true-false, completion, and essay (Saleh 2001: 33). To qualify as a test, the method must be explicit and structured: multiple choice questions with prescribed correct answers; a writing prompt with a scoring rubric; an oral interview based on a question script and checklist of expected responses to be filled in by the administrator (Brown 2004:

33). In this study I chose multiple choice test as an instruments in my research since the scoring can be done quickly and involves no judgments as to degrees of correctness. Besides, multiple choice tests tend to have superior reliability and validity (Harris 1969: 7).

### ***3.3.1.1 Construction of Instrument***

Harris (1969: 7) said that the multiple—choice consists of stem or lead, which is either a direct question or an incomplete statement, and two or more choices or responses, of which one is the answer and the others are distractors—that are the incorrect responses. In this study, I used 50 items of multiple—choice of four distractors: A, B, C, and D.

To assess the development achieved by the students a series of tests were carried out. They were pre-test, formative test, and post-test. The tests were designed to measure the students' ability in simple present tense. It focused on subject-verb agreements because based on my observation, the seventh grade students of SMP N 1 Bawang's mastery in simple present tense especially in subject-verb agreements were still low and it needed to be increased.

### ***3.3.1.2 Pre-test***

Pre-test was given to the students in the first step of collecting data. Pre-test was used to identify the students' ability in simple present tense before the treatment was given. In other words, it told the beginning conditions of the students' ability in simple present tense. (The test sheet could be seen in appendix 9)

### **3.3.1.3 Formative test**

Formative test is a test which is evaluating students in the process of forming their competencies and skills with the goal of helping them to continue that growth process (Brown, 2004: 6). In this study, the writer conducted the formative tests in the end of cycle 1 and cycle 2. (The test sheet could be seen in appendix 10 and 11)

### **3.3.1.4 Post-test**

Post-test was conducted to measure the students' achievement after the treatments. The test was the same as the pre-test and formative tests. Result of the post-test was analyzed to see to what extent single slot substitution drills develop the students' mastery in simple present tense. (The test sheet could be seen in appendix 12)

### **3.3.2 Questionnaire**

The next instrument was questionnaire. Questionnaires deal with the number of questions that should be answered by the students. According to Tuckman (1978: 197), —questionnaires are a way of getting data about persons by asking them rather than watching them behave or by sampling a bit of their behavior. —Questionnaire is a number of written questions to get information from respondent (Arikunto, 2006: 151). Questionnaire was used to find information about the students' reflection toward the learning process by using single slot substitution drills. The questionnaire that was used was based on students' need,

interest, *like*, and *dislike* about teaching and learning process by using single slot substitution drills. Data from questionnaire was used to indicate the students' problem and to know the effect of the action research activities to the students. (The questionnaire sheet could be seen in appendix 13)

### **3.4 Procedures of Collecting Data**

In this action research, I held some multiple choice item tests to know the progress of the students' mastery in simple present tense. The tests included pre-test, cycle 1 test, cycle 2 test, and post-test. At the first time, I gave pre-test to the students. Pre-test was a test which is held before the students were given treatment by using single slot substitution drills. The purpose of the pre-test was to know how well the students' mastery in simple present tense. I also give students a pre-questionnaire. In this case, pre-questionnaire was used to get the information about the previous students' interest and motivation in simple present tense before they had been given the treatment.

In cycle 1, I concerned on gaining students interest in simple present tense by using single slot substitution drills. Moreover, I also used this technique to help students understanding the form of simple present tense. Then, the test of cycle 1 was given, I asked the students to do an exercise consists of 30 multiple choice items.

In cycle 2, I also use single slot substitution drills in teaching simple present tense. Then, I gave a cycle 2 test consists of 30 multiple choice items to check the students' progress. In the last meeting, post-test was given. Post-test

was used to measure students' mastery in simple present tense after being implemented with single slot substitution drills in cycle 1 and cycle 2. Finishing all the activities, I distributed questionnaire to the students to collect information about their responses related to teaching and learning activities in improving simple present tense.

### 3.5 Try Out

Before the test was used to collect data, it was tried out to 34 students of one class from 6 classes of the first year students. I chose one class randomly from those classes.

The goal of conducting the try out test was to measure the validity and reliability of the test. (The test sheet could be seen in appendix 14)

#### 3.5.1 Validity

Groudland cited by Brown (2004: 22) states that validity is the extent to which inferences made from assessment results are appropriate, meaningful, and useful in terms of the purpose of the assessment. In addition, Heaton (1975: 159) says that validity is the extent to which it measures what it is supposed to measure and nothing else.

I used Pearson Product Moment Formula to calculate the validity of the test items.

The formula is:

$$r_{xy} = \frac{N\sum XY - (\sum X)(\sum Y)}{\sqrt{\{(N\sum X^2 - (\sum X)^2)\{(N\sum Y^2 - (\sum Y)^2)\}}}$$

$r_{xy}$  = validity of each item

$N$  = the number of students participates in the test

$\sum XY$  = the sum of multiple of score from each student with the total score in each item

$\sum X$  = the sum of score in each item

$\sum X^2$  = the sum of the square score in each item

$\sum Y$  = the sum of score from each student

$\sum Y^2$  = the sum of the square score from each student

The result is consulted with r product moment,  $r_{xy} > r_{table}$  is valid.

### 3.5.2 Reliability

Reliability is meant the stability of test scores (Harris 1969: 14). To measure the reliability the writer used the KR-20 formula:

$$r_{11} = \left( \frac{k}{k-1} \right) \left( \frac{V_t - \sum pq}{V_t} \right)$$

In which:

$r_{11}$  = instrument reliability

$k$  = the number of items in the test

$V_t$  = the total variance

$p$  = the proportion of students passing a given item

$q$  = the proportion of students that did not pass a given item

$\sum pq$  = the sum of p times q

### 3.5.3 Difficulty level

The index of difficulty or the facility value of an item simply shows how easy or difficult the particular item proved in the test (Heaton 1975: 178). An item is considered to have a good difficulty level if it is not too easy or too difficult for the students, so they can answer the items.

After getting the result of the try out, I classified and selected the item by using the formula:

$$FV = \frac{R}{N}$$

In which:

FV = difficulty level

R = the number of students who answered the item correctly

N = number of students taking the test

(Heaton 1975: 178)

#### Criteria

Difficulty Level	Criteria
$0,00 < FV < 0,30$	Difficult
$0,30 < FV < 0,70$	Medium
$0,70 < FV < 1,00$	Easy

(Heaton 1975: 179)

### 3.5.4 Discriminating Power

Heaton (1975: 179) argues that the discrimination index of an item indicates the extent to which the item discriminates between the testees, separating the more able testees from the less able. The index of discrimination tells us whether those students who perform well on the whole test tends to do well or badly on each item in the test.

The formula:

$$D = \frac{\text{correct U} - \text{correct L}}{n}$$

With:

D = Discrimination Index

n = Number of candidates in one group ( $\frac{1}{2} N$ )

N = The number in the whole group.

U = Upper half

L = Lower half

While the criteria of the computation:

Interval	Criteria
$D \leq 0,20$	Poor
$0,20 \leq D \leq 0,40$	Satisfactory
$0,40 \leq D \leq 0,70$	Good
$0,70 \leq D \leq 1,00$	Excellent

Heaton (1975: 180)

### 3.6 Method of Analyzing Data

#### 3.6.1 Method of Scoring the Test

In scoring the multiple choice item tests, each correct answer is counted one point using the formula below:

$$S = \frac{R}{N} \times 100$$

Where:

S = score

R = total number of the correct answer

N = total number of items

#### 3.6.2 Level of Achievement

The measurement of the students' achievement stated by Brown (2004: 289-294) is interpreted as follow:

Test Score	Letter grades	Level of Achievement
90-100	A	Excellent
80-89	B	Good
70-79	C	Adequate
60-69	D	Inadequate/unsatisfactory
Below 60	F	Failing/unacceptable

Finishing scoring the students, I calculated the mean of the students' score in simple present tense.

The formula was as follow:

$$M = \frac{\sum X}{N}$$

Where:

M = mean

$\sum X$  = sum of the scores

N = number of the students

(Heaton 1975: 176)

### 3.6.3 Method of Analyzing Questionnaire

In analyzing questionnaire I took some steps, firstly, I graded the items. For the answer yes I give score 3, for the answer doubt I give 2, and 1 for the answer no, I give score 1. Then, I tabulated the data and calculated the mean. I calculated the mean by using formula:

$$M = \frac{\sum X}{N}$$

Then, I matched the mean to the criterion given by Heaton (1975: 172)

cited on Megayanti (2010: 48). The criterion was as follow:

Range of Mean	Students' Interest	The Advantage	Students' Achievement	The Relevancy	Sustainability
0.00-1.00	Low	Not helpful	Low	Not relevant	Not necessary
1.01-2.00	Medium	Helpful	Medium	Relevant	Necessary
2.01-3.00	High	Very Helpful	High	Very Relevant	Very Necessary

## CHAPTER IV

### RESULTS AND DISCUSSIONS

In this chapter, the data which had been collected were analyzed and discussed. Therefore, this chapter provides the descriptions of the research, the analysis of each activity including try-out test, pre-test, cycle 1, cycle 2, and post-test. Moreover, this chapter also presents the analysis of the questionnaire. Improvement of the students' mastery in simple present tense, discussion, and research findings complete this chapter.

#### 4.1 Descriptions of the Research

This study is an action research. I conducted an action research for five activities. Those activities were try-out, pre-test, cycle 1, cycle 2, and post-test. All of those activities were conducted in eleven meetings. The schedule of the research and outline of each stage could be seen in the following table.

Table 1. Schedule of the Research

Activity	Try-out	Pre-test	Cycle 1	Cycle 2	Post-test
16 <sup>th</sup> March 2011	✓				
17 <sup>th</sup> March 2011		✓			
18 <sup>th</sup> March 2011			✓		
19 <sup>th</sup> March 2011			✓		
21 <sup>st</sup> March 2011			✓		
22 <sup>nd</sup> March 2011			✓		
23 <sup>rd</sup> March 2011				✓	
24 <sup>th</sup> March 2011				✓	
25 <sup>th</sup> March 2011				✓	
26 <sup>th</sup> March 2011				✓	
26 <sup>th</sup> March 2011					✓

In each stage of the research I did some activities. In the try-out, I asked students to do the try-out test. In the pre-test I asked them to do the test and filled the first questionnaire. Then I conducted cycle one to treat the students. Cycle one consisted of four meetings. In every meeting I used Singe Slot Substitution Drill technique as a treatment. Finishing the cycle one, I conducted cycle two. It also consisted of four meetings and I used single slot substitution drill technique to teach the students. Then I conducted a post-test. In the post-test, I asked the students to do the test and fill the second questionnaire. (The outline of each stage of the research could be seen in appendix 16)

#### **4.1.1 Results of Try-Out Test**

The analysis of the try-out test was to get a good instrument for the investigation. The try-out test was conducted for one class, VII B, consisting 34 students, on Wednesday, 16<sup>th</sup> March 2011. The following are the result:

##### **(1) Validity**

As mentioned in chapter III, item validity was used to find out the index validity of the test. After I calculated using Pearson Product Moment the index validity of number 1 is 0.371. Then I consulted the table of r product moment with  $N=34$  and significance level 5% in which then r product moment is 0.339. Since the result of the computation was higher then  $r_{table}$ , the item number 1 was considered to be valid. From the 60 items; 50 items were valid and 10 items were invalid. (The complete data could be seen in appendix 1).

## (2) Reliability

After the computation of reliability with K-R 20, the computation obtained 0.917, for  $\alpha = 5\%$  with  $N = 34$ , the  $r_{table} = 0.339$ . Since the value resulted from the computation were higher than the critical value, it can be concluded that the instrument used in the research is reliable.

## (3) Difficulty Level

From the computation of item difficulty, it was found that 38 items were medium, 22 items were easy, and no item was difficult. (The index of difficulty could be seen in the appendix 1).

## (4) Discriminating Power

From the computation consulted by the table in appendix 1, it was obtained that 6 items were poor, 26 items were medium/satisfactory, 28 were good, and no item was excellent.

Based on the analysis of validity, reliability, difficulty level, and discriminating power, finally 50 items from 60 items were accepted. They were number 1, 2, 4, 5, 6, 7, 8, 9, 11, 12, 13, 14, 16, 17, 18, 19, 20, 22, 23, 24, 25, 26, 28, 29, 30, 31, 32, 33, 34, 35, 37, 38, 39, 41, 42, 43, 44, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 57, 58, 60.

### 4.1.2 Results of Pre-Test

Before the treatment using single slot substitution drills was given, I conducted a pre-test. Pre-test was conducted to know the students' mastery in simple present tense. The English teacher helped me to monitor the students. The pre-test was

conducted on Thursday, 17th March 2011. I took class VIIC. There were 34 students who followed the pre-test. They had to do 50 questions of simple present tense in the form of multiple choice items. The time allotment was 50 minutes. (The result of pre-test could be seen in appendix 3). After they finished with the pre-test, I gave them the first questionnaire to know the students' attitude of their mastery in simple present tense.

In analyzing the students' mastery in simple present tense using multiple choice items, I used a scoring formula. Score could be achieved by dividing the total correct answers with the total number of items multiplied by 100.

Finished scoring the pre-test, I continued to classify the result based on the criterion assessment of KTSP (2006). Based on that criterion, the seventh grade students had to achieve minimally 65 in English. Then, I compared the classification based on KTSP (2006) criterion and classification given by Brown (2004: 289-294). The classifications were as follows:

Table 2. The classification Based on KTSP (2006)

Score	Frequency	Percentile Ranks	Classification
< 65	33	97%	Incomplete
65	0	-	-
> 65	1	3%	Complete

Table 3. The Classification of the Students' Pre-test

According to Brown (2004: 289-294)

Test Score	Frequency	Percentile Ranks	Level of Achievement
90-100	-	-	Excellent
80-89	-	-	Good
70-79	-	-	Adequate
60-69	1	3%	Inadequate/unsatisfactory
Below 60	33	97%	Failed/unacceptable

Then, the average of the students' pre-test was as follow:

$$\begin{aligned}
 M &= \frac{\text{sum of the scores}}{\text{number of the students}} \\
 &= \frac{1662}{34} \\
 &= 48.88
 \end{aligned}$$

Based on the pre-test, the result was 97 % students got mark under 65. The average students' pre-test was 48.88. Hence 33 students were failed to fulfill the requirement. Generally, students' mastery in simple present tense was very low. In short, it could be said that students needed some treatments to improve their mastery in simple present tense. Hence, I conducted the cycle one to solve the problem.

### 4.1.3 Results of Cycle One

Cycle one was conducted in four meetings. It was conducted on Friday, 18<sup>th</sup> March, Saturday, 19<sup>th</sup> March, Monday, 21<sup>st</sup> March, and Tuesday, 22<sup>nd</sup> March 2011. In this cycle, I focused on the area of listening and speaking since the simple present tense was also taught in these skills. The first meeting was used to teach students about expression of *like* and *dislike*, the second meeting was about *asking* and *giving opinion*, the third meeting was asking *clarification*, and the last meeting was about these three expressions to review students' understanding before conducted the assessment of cycle 1. In every meeting, I used single slot substitution drills to teach the students using simple present tense.

The first meeting was about *like* and *dislike* expressions. These two expressions used simple present tense. Firstly, I gave the students the material of *like* and *dislike* expressions. Then I gave them the example of dialog using each expression and asked the students to repeat the dialog. After I finished with the material, I continued by taking a sentence using simple present tense from the dialog and wrote this sentence in the whiteboard. I wrote the formula of simple present tense patterns to make the students understand this material. In this stage, I used single slot substitution drill technique. I pointed the students one by one to change the sentence written on the board with my words orally. By using this technique, the students were very active because they were forced to think how to make the correct sentence and spoke it aloud. The students also focused on the lesson because they had to prepare whether they got a chance to make a sentence. Finished with this treatment, I asked the students to make a group of two to make

a dialog using expression of *like and dislike* and performed it in front of the classroom. They used simple present tense in the dialog. Generally, the students had known the simple present tense patterns formula, but some of them were still confused in the use of *be* form, especially in differentiating the *be* for the plural and singular subjects.

The next meeting, I continued with another material. It was about *asking and giving opinion*. Similar with the first meeting I gave the students some expressions using *asking and giving opinion* and an example of dialog using these expressions. Before I asked them to make their own dialog, I repeated to explain about simple present tense patterns because it was also used in the expressions of *asking and giving opinion*. Once again, I took one sentence from the dialog and wrote it in the whiteboard and used single slot substitution drills as a treatment. In this treatment, I also pointed the students one by one and asked them to change the sentence based on my word. The students were very enthusiastic with the treatment because they were used to use this technique in the first meeting. Finishing this stage, I asked them to make a dialog using expression of *asking and giving opinion*. I found the student who did mistake in the first meeting, did not do the same mistake.

In the third meeting, I taught the students with *clarification expression*. This expression also used simple present tense. Similar to the previous meetings, I explained about the expression of *clarification* and prepared the dialog as an example to make the students understood this material. I did not explain about the simple present tense patterns because they had known it in the previous meetings.

I wrote a sentence from the dialog and then using single slot substitution drill technique by asking the students one by one randomly to change sentences based on my words correctly. After the students got the point of using simple present tense in the dialog, I asked them to make their own dialogs. I saw they got improved their mastery in simple present tense since there were a few students did the mistake in the dialogs.

The last meeting was about reviewing the previous meetings. I asked students whether they got confused in the material they had learned. I focused on the simple present tense. I gave the students with the more difficult material that was a simple present tense patterns using noun phrase as a subject. I wrote a sentence on the whiteboard and using single slot substitution drill technique. The same as the previous meetings, I pointed the students one by one to change the sentence with some words I gave to them orally. At first, they were difficult to change the sentence because they were confused in determine the subject, whether it plural or singular. After I explained it, they could make a correct sentence.

I found that the teaching learning process in this cycle was not really conducive because the students were very crowded. They spoke aloud to each other during the teaching learning process. It was happen because they were not accustomed to the single slot substitution drill technique and it was also because of the way of applying single slot substitution drill technique to the students were done in a series.

The last stage, I gave the students an assessment of simple present tense. I gave them 30 questions of multiple choice items. The time allotment was 30 minutes. (The result of students' result in cycle 1 could be seen in appendix 4).

Table 4. The Classification of the Students' Test in Cycle 1 Based on KTSP (2006)

Score	Frequency	Percentile Ranks	Classification
< 65	11	32%	Incomplete
65	0	-	-
> 65	23	68%	Complete

Table 5. The Classification of the Students' Test on Cycle 1

According to Brown (2004: 289-294)

Test Score	Frequency	Percentile Ranks	Level of Achievement
90-100	-	-	Excellent
80-89	8	23,5%	Good
70-79	9	26,5%	Adequate
60-69	16	47%	Inadequate/unsatisfactory
Below 60	1	3%	Failed/unacceptable

Here is the average of the students' test result:

$$\begin{aligned}
 M &= \frac{\text{sum of the scores}}{\text{number of the students}} \\
 &= \frac{2382}{34} \\
 &= 70.05
 \end{aligned}$$

The average score of the test was 70.05. From the result of the test, it was known that there was an improvement in students' mastery in simple present tense. It developed 21.17 point from the pre-test. The number of students who failed the test also decreased. The number of the students who categorized as failed achiever, decreased from 33 became 1. The number of the students who were categorized inadequate increased from 1 became 16. There were 9 students who were categorized as adequate achiever from 0 students in the pre-test. The number of the students who were categorized as good achiever increased from 0 students in pre-test became 8 students. The average score also indicated that there was the improvement in the level of achievement based on Brown (2004: 289-294) that was from failed became adequate. However, there were still 11 students who had not passed the test.

Knowing the teaching learning process did not run well because of some students did not pass the test and the teaching learning process was not conducive, I prepared for conducting a cycle 2 to solve this problem.

#### **4.1.4 Results of Cycle Two**

Cycle two took four meetings. The first meeting was on Wednesday, 23<sup>rd</sup> March. The second meeting was on Thursday, 24<sup>th</sup> March. The third meeting was on Friday, 25<sup>th</sup> March. And the last meeting was on Saturday, 26<sup>th</sup> March 2011. Generally the procedure of in this cycle was almost the same as the previous cycle, but in the area of reading and writing since simple present tense was also used in the area of these skills. In this cycle I took a descriptive text. In the first

and second meeting I concerned on the reading skill, but in the third and fourth meeting I focused on writing skill.

In the first meeting, I explained about a descriptive text. I gave students an example of descriptive text and asked them to find out simple present tense sentences in the text to check the students' understanding about simple present tense. Then, as in the cycle 1, I wrote a sentence from the text using simple present tense and gave explanation about its structure to reminded students. As usual, I used single slot substitution drill technique as a treatment. I pointed the students one by one to change the sentence based on my words orally. Some students made a mistake in changing the sentence, especially in differentiating the singular and plural verbs. Then I explained it deeply. After they had understood with my explanation I continued to treat the students using single slot substitution drills. After they understood the lesson, I asked them to read a descriptive text and did the exercise.

In the second meeting, I continued the previous meeting. Since there were mistakes in the students' answer using simple present tense in the previous meeting, I decided using single slot substitution drills to teach the students. I wrote a sentence on the whiteboard and asked them to change the sentence. Most students had understood and made a correct sentence. Then I gave them with another sentence and used single slot substitution drill technique. I concerned with students who did mistake in making sentence. After they understood, I ended the lesson.

The third meeting was used to teach about descriptive text in the writing skill. It was used to check the students' understanding of simple present tense in writing. Before I asked the students to make their own texts, I treated them using single slot substitution drills in simple present tense since it would be used to make a descriptive text. I wrote a sentence on the whiteboard and asked the students one by one to make a new sentence based on my words orally. The students were enthusiastic with the lesson. Some of them asked me about the material they had not understood. Then, I explained it. Finishing with the treatment, I asked them to make a descriptive text using their own sentences. Finally I asked them to collect their work.

In the last meeting, I continued with the same material. After, I checked the students' writing. I still found some of them made a little mistake in their writing. Hence, I used single slot substitution drills to treat them. I wrote a sentence that a student did mistake on the whiteboard and asked the students one by one to change the sentence with my words orally. The students who did mistake, I treated seriously.

The teaching learning process in this cycle run well because I tried to handle the class seriously by asking students one by one using single slot substitution drill technique randomly. This strategy was more effective to handle the class rather than asking students in a series. It made students concentrate with the teaching learning process because they prepared themselves to answer my questions. It was because they did know when they would get chance to answer my questions.

Finishing this treatment, I asked the students to do the assessment of cycle 2. I gave them 30 minutes to do it.

(The result of the students' result in cycle 2 could be seen in appendix 5).

Table 6. The Classification of the Students' Test in Cycle 2 Based on KTSP (2006)

Score	Frequency	Percentile Ranks	Classification
< 65	0	-	-
65	0	-	-
> 65	34	100%	Complete

Table 7. The Classification of the Students' Test on Cycle 2 According to Brown (2004: 289-294)

Test Score	Frequency	Percentile Ranks	Level of Achievement
90-100	5	15%	Excellent
80-89	13	38%	Good
70-79	6	18%	Adequate
60-69	10	29%	Inadequate/unsatisfactory
Below 60	0	0%	Failed/unacceptable

Here is the average of the students' test result:

$$\begin{aligned}
 M &= \frac{\text{sum of the scores}}{\text{number of the students}} \\
 &= \frac{2628}{34} \\
 &= 77.29
 \end{aligned}$$

The average of the test was 77.29. It increased 7.24 from the cycle 1 result. The improvement was not as high as the first cycle. Based on the scores above, generally the students' mastery in simple present tense improved.

Based on the KTSP (2006) criterion, 100% students were considered to be complete. It was amazing result.

According to Brown, there were 0 student considered to be a failed achiever, 10 students considered inadequate, 6 students were adequate, 13 students were good, and 5 students were excellent. It increased from the first cycle.

Knowing the result of the students' score and the teaching learning process that run well, I decided to conduct the post-test. Before giving a post-test, I reviewed all materials I had given to them; those are about simple present tense in the area of listening, speaking, reading, and writing. But here, I focused on students who did a lot of mistakes in both two cycles. Here I also gave students a motivation to do the best for the test. After they were ready for the test, I conducted the post-test.

#### **4.1.5 Results of Post-Test**

After conducting two cycles, I saw the students had improved their mastery in simple present tense. Yet, they must have been evaluated once again that was in the post-test. The post-test was conducted on Saturday, 26<sup>th</sup> March 2011. I conducted the post-test on the same day with the last meeting of the cycle 2 because the class would be used in the national examination on Monday, 28<sup>th</sup>

March 2011. Before giving the post-test I told students that they had showed a great improvement, even though they had to do the post-test individually and I made them sure that they could do the best. Then, I reviewed the material briefly. The procedure in the post-test was the same as the pre-test. I gave students 50 items, same as the pre-test. The time allotment was 50 minutes. (The results of post-test could be seen in appendix 6). The students' score improved significantly. All of them passed the test. Based on the results, there were 6 students considered to be inadequate, 8 students were adequate, 7 students were good, and 13 students were excellent. The average score also showed that there was improvement in the level of achievement, that was from adequate became good. The classification of the students' test result could be presented as follows:

Table 8. The Classification of the Students' Post-Test Based on KTSP (2006)

Score	Frequency	Percentile Ranks	Classification
< 65	0	-	-
65	0	-	-
> 65	34	100%	Complete

Table 9. The Classification of the Students' Post-Test

According to Brown (2004: 289-294)

Test Score	Frequency	Percentile Ranks	Level of Achievement
90-100	13	38%	Excellent
80-89	7	20,5%	Good

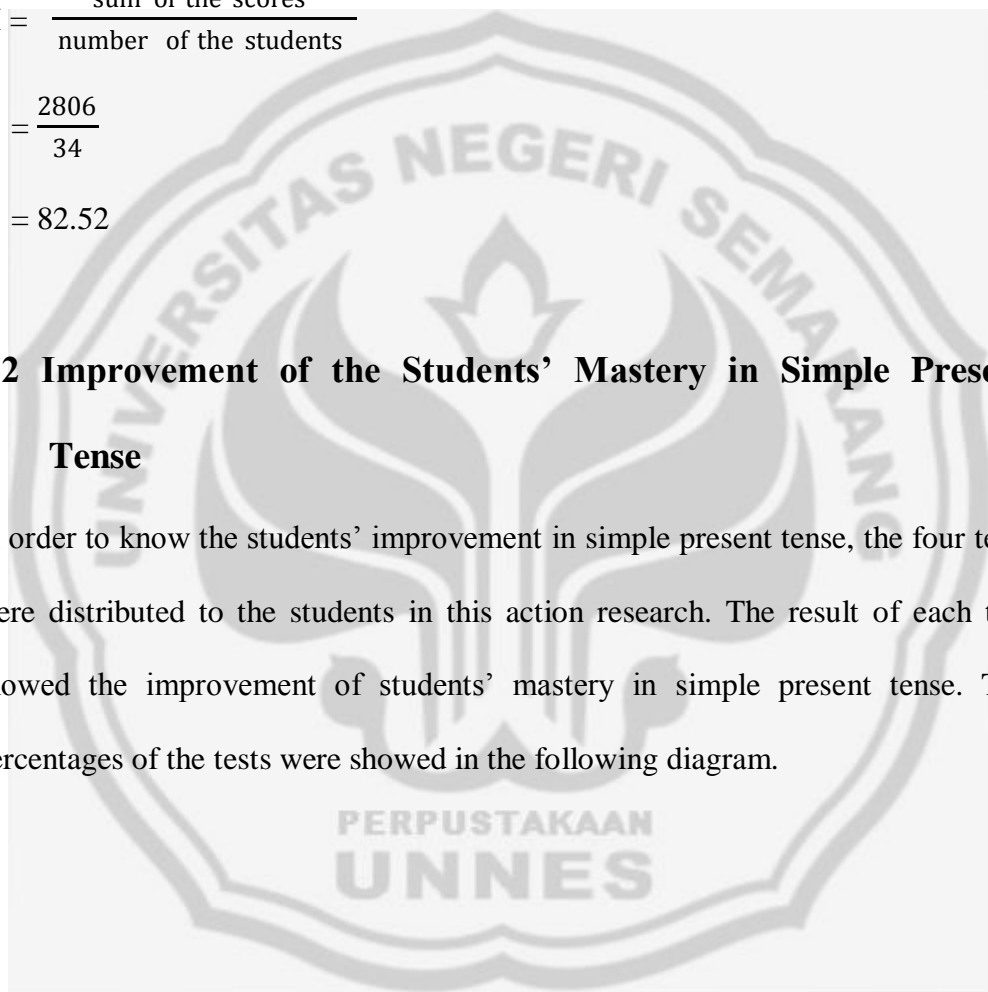

70-79	8	23,5%	Adequate
60-69	6	18%	Inadequate/unsatisfactory
Below 60	0	0%	Failed/unacceptable

Here is the average of the students' test result:

$$\begin{aligned}
 M &= \frac{\text{sum of the scores}}{\text{number of the students}} \\
 &= \frac{2806}{34} \\
 &= 82.52
 \end{aligned}$$

#### **4.2 Improvement of the Students' Mastery in Simple Present Tense**

In order to know the students' improvement in simple present tense, the four tests were distributed to the students in this action research. The result of each test showed the improvement of students' mastery in simple present tense. The percentages of the tests were showed in the following diagram.

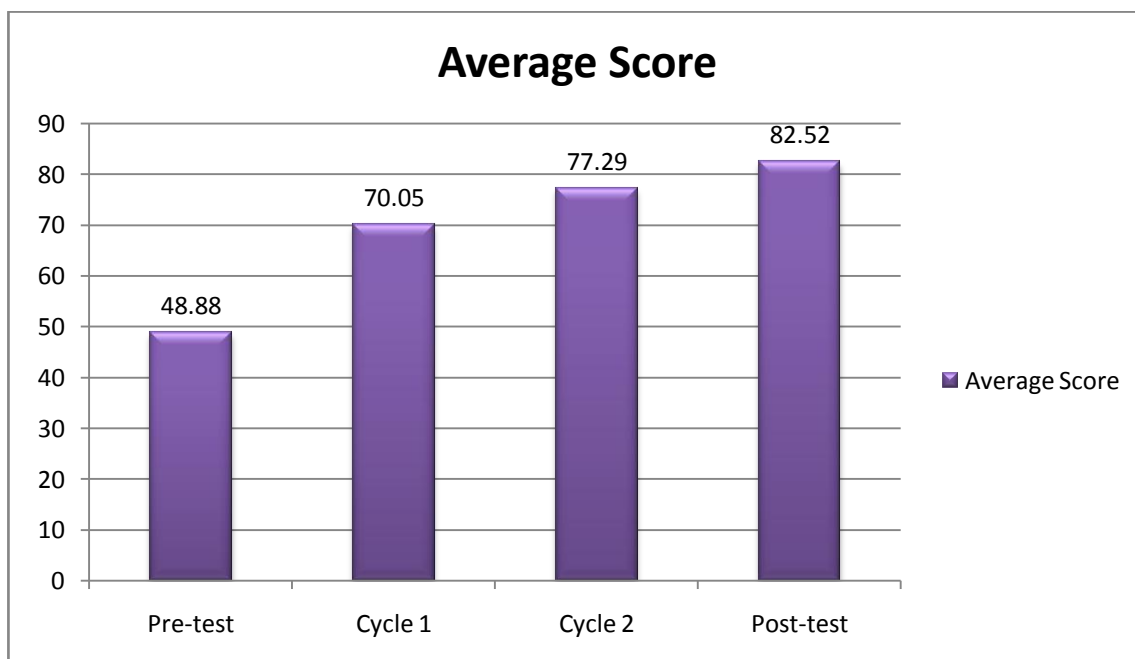

Diagram 1.Improvement of the Students' Score in simple present tense

The diagram above showed that there was an improvement in every test. The mean of the pre-test was 48.88. It was lower than the criterion of minimal standard of the school that was 65. The students had problems in simple present tense.

In first cycle, there was much improvement. The average score was 70.05. It was higher than the criterion of minimal standard of the school and the pre-test. The mean increased 21.17 points. It indicated that the students could understand simple present tense better by using single slot substitution drill technique.

After knowing the result of cycle one, I found that some students' scores still under the minimal standard of the school although their score had improved. Therefore, I decided to conduct the second cycle. In the end of cycle two, I

distributed a test. The results were good. The mean was 77.29 or increased 7.24 from the results of cycle one. All students passed the test.

The last test was post-test. The mean in this test was 82.52 or increased 33.64 compared with the pre-test. This significant improvement showed that the students could master simple present tense easily using single slot substitution drill technique.

### **4.3 Results of Non-Test Instrument**

#### **4.3.1 Results of First Questionnaire**

First questionnaire was given in the end of pre-test. First questionnaire was given to know the students' attitude toward the teaching learning process before given the treatment by using single slot substitution drill technique. There were five multiple choice questions in the first questionnaire.

The first question was whether the students liked learning grammar in English or not, the result was 1.5. It indicated that the students' interest in learning grammar was medium. However, it needed to be increased in order to improve students' mastery in simple present tense. The second question was whether the students liked simple present tense or not, the result was 1.44. It meant that the students' interest in simple present tense was also medium which meant that it needed to be increased. The third question was whether the students had mastered the simple present tense or not. The answer was 1.91. It meant that students' mastery was still medium and needed to be increased. The next question was whether the teacher had used technique to teach simple present tense or not, the

result was 1.94. It showed that the teacher never ever had used technique in teaching simple present tense. The last question was whether the students were willing to use technique in learning simple present tense or not and the result was 2.82. It indicated that most students were willing to have a technique in learning simple present tense.

#### **4.3.2 Results of Second Questionnaire**

Second questionnaire was conducted after the post-test. It was used to know the students' attitude toward simple present tense after being treated using single slot substitution drills. The result of the second questionnaire was as follows.

The first question was about the students' interest in using single slot substitution drills. The result was 2.85. It showed that the students' interest in Single slot substitution drill technique was high.

The second question was about the advantage of using single slot substitution drill technique in the simple present tense. The result was 2.26 which meant that this technique was helpful.

The third question was about students' achievement whether it increased or not after they got a treatment using single slot substitution drill technique. The result was 2.85. This meant that students' achievement was increased.

The fourth question was about relevancy of using single slot substitution drill technique in teaching simple present tense. The result of this question was 2.85. It meant that this technique was very relevant.

The last question was about sustainability of single slot substitution drill technique. It asked students whether this technique should have been continued or not in learning English. The result was 2.67 which meant this technique was very necessary.

#### **4.4 Discussion**

This section deals with the discussion of the simple present tense test and teaching learning process as well as the interpretation of the results.

First, I tried to know students' understanding about simple present tense. Most of them had understood the structure of simple present tense. Then, I gave students a pre-test. The purpose of the pre-test was to know the students' mastery in Simple Present before the treatment. Finishing with the test, I delivered non-test instrument to the students' that was first questionnaire. The purpose of giving the first questionnaire was to know students' attitude toward the lesson before the treatment.

After I gave the pre-test and first questionnaire to the students, I analyzed the result of pre-test and I found that students' mastery in simple present tense was very low. It could be seen that there were 33 students did not pass the minimal criterion of the score based on KTSP (2006). Then, I started giving treatment to the students. In this treatment I used single slot substitution drill technique. The purpose of giving this technique was to catch students' attention and got their interest in learning simple present tense. To measure students'

mastery in simple present tense after being treated, I gave them a formative test for cycle one.

Knowing the result of cycle one, I considered giving a second cycle to the students since there were some students who did not fulfill the criterion. Mostly, they did mistake in making sentences using singular subjects. They forgot adding *s/es* in the end of the verbs. The procedure of cycle two was almost the same with the cycle one. The students were enthusiastic joining the lesson. They were more active than in the first cycle, especially in the using of single slot substitution drills. In the end of the cycle two, I delivered a formative test. The result of the test was satisfying. All students fulfilled the criterion.

#### **4.5 Research Findings**

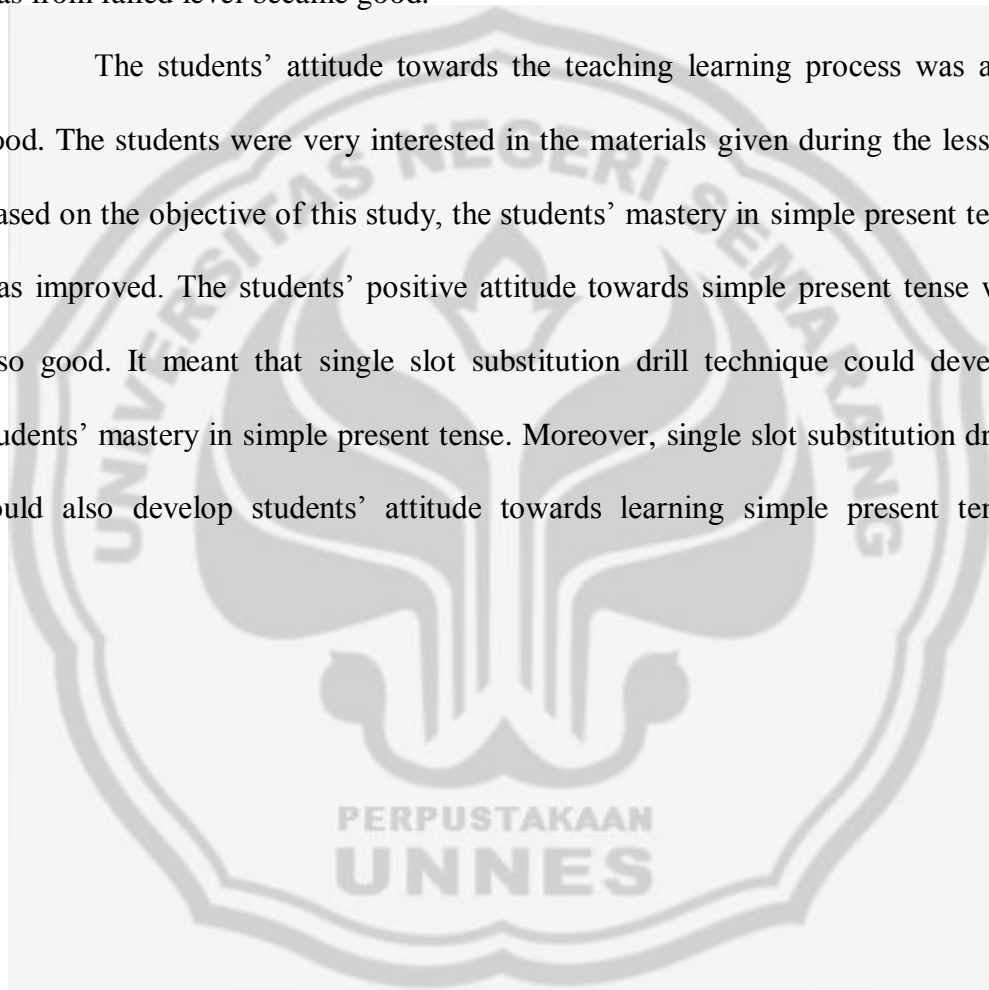

From the result of the study, there were some findings. There were presented as follows:

Before I gave the treatment using single slot substitution drills, most of the students had understood about the theory of simple present tense structure. Yet, they still did mistakes in making sentences using singular subjects although they thought that simple present tense was not too difficult. However, after they were introduced with the single slot substitution drill technique, their mastery in simple present tense was much better.

In this study I introduced a technique in learning simple present tense that was single slot substitution drills. This technique helped students to understand the correct structure of simple present tense. Furthermore, their

mastery in simple present tense increased. The result showed significant improvement from the pre-test that was 48.88 became 82.52. It meant that the result increased 33.64. The average score also indicated that there was improvement in the level of achievement based on Brown (2004: 289-294) that was from failed level became good.

The students' attitude towards the teaching learning process was also good. The students were very interested in the materials given during the lesson. Based on the objective of this study, the students' mastery in simple present tense was improved. The students' positive attitude towards simple present tense was also good. It meant that single slot substitution drill technique could develop students' mastery in simple present tense. Moreover, single slot substitution drills could also develop students' attitude towards learning simple present tense.

## **CHAPTER V**

### **CONCLUSIONS AND SUGGESTIONS**

This final project ends with conclusions and suggestions.

#### **5.1 Conclusions**

Based on the result of the research and discussions, there are two main points that can be concluded.

First, single slot substitution drill technique gives contribution to the development of the students' mastery in simple present tense for the seventh grade students of SMP Negeri 1 Bawang, Batang in the academic year of 2010/2011. The results of the pre-test, cycle one, cycle two, and the post-test show that there is improvement in students' achievement of simple present tense after being treated using single slot substitution drill technique. The average score in the pre-test was 48.88, in cycle one was 70.05, in cycle two was 77.29, and in the post-test was 82.52. It proved that the result of the post-test was better than the minimal score of KTSP (2006) standard that is 65. The treatment in fact helps the students to learn simple present tense.

Second, single slot substitution drill technique contributes to the development of the positive attitude in learning simple present tense of the seventh grade students of SMP Negeri 1 Bawang in the academic year of 2010/2011. The results of the questionnaire show that the students' positive

attitude in learning simple present tense has increased. Therefore, single slot substitution drill technique is very useful to teach grammar, especially in teaching simple present tense.

## 5.2 Suggestions

Based on the conclusions above, some suggestions are offered as follows:

First, for English teacher

In teaching simple present tense, teachers need an interesting technique to eliminate the students' boredom during the lesson and attract them to be interested in teaching learning process. Single slot substitution drill technique can be used as one alternative technique in teaching simple present tense.

Second, for students

Students should familiarize with single slot substitution drills in order to ease the teaching learning process using this technique. Therefore, it will reach satisfying results in students' mastery of grammar, especially in simple present tense.

Third, for future researcher

Future researchers should try using single slot substitution drill technique in teaching other aspects of grammar. Moreover, future researchers should maximize the use of single slot substitution drill technique in teaching learning process.

## The Computation of Item Validity Test

**Formula:**

$$r_{xy} = \frac{N\sum XY - (\sum X)(\sum Y)}{\sqrt{\{(N\sum X^2 - (\sum X)^2)\}\{(N\sum Y^2 - (\sum Y)^2)\}}}$$

**Criteria:**

The item is valid if  $r_{xy} > r_{table}$

The following is the example of counting the validity of item number 1, and for the other items will use the same formula.

No	Code	X	Y	X <sup>2</sup>	Y <sup>2</sup>	XY
1	T-11	1	57	1	3249	57
2	T-9	1	57	1	3249	57
3	T-30	0	55	0	3025	0
4	T-20	1	55	1	3025	55
5	T-32	1	55	1	3025	55
6	T-14	1	55	1	3025	55
7	T-3	0	54	0	2916	0
8	T-6	1	53	1	2809	53
9	T-27	1	52	1	2704	52
10	T-18	0	51	0	2601	0
11	T-1	1	51	1	2601	51
12	T-26	1	50	1	2500	50
13	T-22	1	48	1	2304	48
14	T-25	1	48	1	2304	48
15	T-33	1	47	1	2209	47
16	T-31	1	44	1	1936	44
17	T-23	1	40	1	1600	40
18	T-34	0	35	0	1225	0
19	T-4	0	34	0	1156	0
20	T-2	1	33	1	1089	33
21	T-29	0	32	0	1024	0
22	T-7	1	32	1	1024	32
23	T-21	0	31	0	961	0
24	T-13	0	30	0	900	0
25	T-19	1	30	1	900	30
26	T-10	1	29	1	841	29
27	T-24	0	29	0	841	0
28	T-28	1	29	1	841	29
29	T-5	0	28	0	784	0
30	T-16	0	28	0	784	0
31	T-8	1	28	1	784	28

32	T-17	1	27	1	729	27
33	T-12	0	25	0	625	0
34	T-15	0	23	0	529	0
$\Sigma$		21	1375	21	60119	920

$$r_{xy} = \frac{34 \times 920 - (21)(1375)}{\sqrt{\{(34(21) - (21)^2)\{(60119) - (1375)^2\}}}}$$

$$= 0.371$$

For  $\alpha = 5\%$  and number of subject 34,  $r_{table} = 0.339$

Because  $r_{xy} > r_{table}$ , then item number 1 is valid

## The Computation of the Reliability Test

Formula:

$$r_{11} = \left( \frac{k}{k-1} \right) \left( \frac{V_t - \sum pq}{V_t} \right)$$

Explanation

$r_{11}$  = instrument reliability

$k$  = the number of items in the test

$V_t$  = the total variance

$p$  = the proportion of students passing a given item

$q$  = the proportion of students that did not pass a given item

$\sum pq$  = the sum of  $p$  times  $q$

Criteria

The instrument is reliable if  $r_{11} > r_{table}$

The following is the computation of the reliability of the instrument

$$V_t = \frac{\sum Y^2 - \frac{(\sum Y)^2}{N}}{N} = \frac{60119 - \frac{(1375)^2}{34}}{34} = 132.71$$

$$\sum pq = 12.9194$$

$$r_{11} = \left( \frac{60}{60-1} \right) \left( \frac{132.71 - 12.9194}{132.71} \right) = 0.917$$

For  $\alpha = 5\%$  and number of subject 34,  $r_{table} = 0.339$

Because  $r_{11} > r_{table}$ , then instrument is reliable

## The Computation of Difficulty Level

Formula:

$$FV = \frac{R}{N}$$

Explanation

FV = difficulty level

R = the number of students who answered the item correctly

N = number of students taking the test

Criteria:

Difficulty Level	Criteria
0.00 < FV < 0.30	Difficult
0.30 < FV < 0.70	Medium
0.70 < FV < 1.00	Easy

The following is the example of computation of

the difficulty value of item number 1, and for the other items will use the same formula.

$$R = 21$$

$$FV = \frac{21}{34} = 0.617$$

$$N = 34$$

According to the criteria, the item number 1 is medium.

## The Computation of the Discriminating Power

**Formula:**

$$D = \frac{\text{correct U} - \text{correct L}}{n}$$

With:

D = Discrimination Index

n = Number of candidates in one group ( $\frac{1}{2} N$ )

N = The number in the whole group.

U = Upper half

L = Lower half

While the criterion of the computation:

Interval	Criteria
$D \leq 0,20$	Poor
$0,20 \leq D \leq 0,40$	Satisfactory
$0,40 \leq D \leq 0,70$	Good
$0,70 \leq D \leq 1,00$	Excellent

The following is the example of the computation of the item discrimination of item number 1, and for other items will use the same formula.

Upper Group			Lower Group		
No	Code	Score	No	Code	Score
1	T-11	1	1	T-34	1
2	T-9	1	2	T-4	0
3	T-30	1	3	T-2	1
4	T-20	1	4	T-29	1
5	T-32	1	5	T-7	1
6	T-14	0	6	T-21	0
7	T-3	1	7	T-13	1
8	T-6	1	8	T-19	0
9	T-27	1	9	T-10	0
10	T-18	1	10	T-24	0
11	T-1	1	11	T-28	0
12	T-26	1	12	T-5	1
13	T-22	1	13	T-16	1
14	T-25	1	14	T-8	0
15	T-33	1	15	T-17	1
16	T-31	1	16	T-12	0
17	T-23	1	17	T-15	1
SUM		16	SUM		9

$$D = \frac{16 - 9}{17} = 0.41$$

According to the criteria, the item number 1 is good.

## Appendix 2

## List of the Students

No.	Nama
1	Aan Andyanto
2	Abdul Rohman
3	Adik Bela

## Appendix 9

## TRY OUT

Answer the following questions by putting a cross (X) on either A, B, C, or D for the right answer!

1. Dina : .....your mother .....cooking?  
Wulan : Yes, she usually cooks fried chicken.
- |                 |               |
|-----------------|---------------|
| A. Does---like  | C. Do---likes |
| B. Does---likes | D. Do---like  |

2. The condition of the rooms.....not healthy.
- |        |       |
|--------|-------|
| A. are | C. is |
| B. am  | D. do |
3. ....usually drinks tea every morning.
- |           |        |
|-----------|--------|
| A. Mother | C. You |
| B. We     | D. I   |

My name is Kaka. I am a first grade student of SMP N I Bawang, Batang. I stay at 26 Dieng Street, Bawang.

4. What.....the word 'I' refer to?  
The word 'I'.....to Kaka.
- |                  |                 |
|------------------|-----------------|
| A. do---refers   | C. do---refers  |
| B. does---refers | D. does---refer |

Sasa is in a market. She needs a book and a pencil. Her mother, Mrs. Lisa, is also in a market. She wants to buy some apples and some oranges.

5. What does Sasa want?  
She.....a book and a pencil.
- |                |           |
|----------------|-----------|
| A. want        | C. wants  |
| B. do not want | D. wanted |
6. ....Mrs. Lisa want to buy some apples and some oranges? Yes, she....
- |                |                 |
|----------------|-----------------|
| A. Do---do     | C. Do---doesn't |
| B. Does---does | D. Do---does    |

7. Sinta : .....you like a chocolate?  
Wulan : No, I..... I hate chocolate.
- |                   |                 |
|-------------------|-----------------|
| A. Does---don't   | C. Do---doesn't |
| B. Does---doesn't | D. Do---don't   |

8. My sister.....singing. She.....to be a good singer. She always has a singing class after school.
- |                 |                  |
|-----------------|------------------|
| A. like---want  | C. likes---wants |
| B. like---wants | D. likes---want  |

9. Indra : What is your favorite sport?  
 Bima : Swimming.  
 Indra : .....you.....it every day?  
 Bima : No, just on Sunday.
- |              |                |
|--------------|----------------|
| A. Do---does | C. Does---do   |
| B. Do---do   | D. Does---does |

Reading is a good hobby. From reading we can improve our knowledge and get more information. Reading can make us happy. We can read some novels, short stories, or funny stories. We can borrow them from our school library.

10. Is reading a good hobby?
- |                 |                |
|-----------------|----------------|
| A. Yes, it is   | C. Yes, it do  |
| B. Yes, it does | D. Yes, it did |

## Appendix 14

## FIRST QUESTIONNAIRE

Jawablah pertanyaan di bawah ini dengan sejujur-jujurnya. Tulislah nama Anda terlebih dahulu. Isilah pertanyaan – pertanyaan di bawah ini dengan memberi tanda silang (X). Pilih jawaban berdasarkan pendapat Anda masing – masing.

1. Apakah Anda menyukai pelajaran grammar dalam Bahasa Inggris?
    - a. Ya
    - b. Ragu-ragu
    - c. Tidak
  2. Apakah Anda menyukai Simple Present Tense dibandingkan tenses lain?
    - a. Ya
    - b. Ragu-ragu
    - c. Tidak
  3. Apakah Anda sudah menguasai pelajaran Simple Present Tense?
    - a. Ya
    - b. Ragu-ragu
    - c. Tidak
  4. Apakah guru Anda pernah menggunakan teknik khusus dalam mengajar Simple Present Tense?
    - a. Ya
    - b. Ragu-ragu
    - c. Tidak
  5. Apakah Anda mengharapkan penggunaan teknik khusus dalam belajar Simple Present Tense?
    - a. Ya
    - b. Ragu-ragu
    - c. Tidak
- 

## SECOND QUESTIONNAIRE

Jawablah pertanyaan di bawah ini dengan sejujur-jujurnya. Tulislah nama Anda terlebih dahulu. Isilah pertanyaan – pertanyaan di bawah ini dengan memberi tanda silang (X). Pilih jawaban berdasarkan pendapat Anda masing-masing.

1. Apakah Anda menyukai teknik single slot substitution drill yang digunakan untuk mengajar Simple Present Tense?
  - a. Ya
  - b. Ragu-ragu
  - c. Tidak
2. Apakah Anda sudah menguasai pelajaran Simple Present Tense setelah Anda menggunakan single slot substitution drill sebagai teknik?
  - a. Ya
  - b. Ragu-ragu
  - c. Tidak
3. Apakah Anda mengalami peningkatan prestasi dalam Simple Present Tense setelah penggunaan single slot substitution drill sebagai teknik belajar?
  - a. Ya
  - b. Ragu-ragu
  - c. Tidak
4. Menurut Anda, apakah single slot substitution drill relevan untuk meningkatkan pemahaman Simple Present Tense Anda?
  - a. Ya
  - b. Ragu-ragu
  - c. Tidak
5. Apakah menurut Anda penggunaan single slot substitution drill sebagai teknik perlu dilakukan guru Anda untuk mengajar materi lain?
  - a. Ya
  - b. Ragu-ragu
  - c. Tidak

Dialog

## II. OBJECTIVES

In the end of the lesson, 75% of all the students are able to

1. Use Simple Present Tense correctly.
2. Use Simple Present Tense in the dialog.

## III. MATERIAL OF LEARNING

**Dislike**

- (I'm afraid) I don't like ....
- I (really) hate ....
- I can't bear ....
- I can't stand ....

### Like

- I like/love ....
  - I (really) enjoy ....
  - I do like/love ....
  - I'm (really) very fond of ....
- Informal (older people to younger people)
- Formal (younger people to older people or to a stranger)

## SIMPLE PRESENT TENSE

FORMULA: (+) S+to be (is, am, are)+ C  
 (-) S+to be (is, am, are)+not+C  
 (?) To be (is, am, are)+S+C

### Dialog 1

Mitha : "Do you like apple?"

Dara : "Yes, I do. It is very sweet. What about you?"

Mitha : "***I like orange so much.***"(like)

### Dialog 2

Ann : "Do you like Rafi Ahmad?"

Bian : "No, ***I don't like him*** (dislike) but I like Cristian Sugiono. He is very handsome."

### Dialog 3

- *Do you like sports?*
- Yes, I do.
- What sport do you play?
- *I like swimming. It is very good for our health.*
- *I dislike playing football.*

## IV. METHOD DAN MODEL

1. Method : Audio-lingual method
2. Model : Single slot substitution drill

## V. STEPS OF LEARNING ACTIVITY

### 1. Introduction (5 minutes)

- ✓ Teacher asks about students' condition (apperception)  
*Good morning students. How's life? Good. Who is absent today?*
- ✓ Teacher gives the purpose of learning and competency that has to be achieved by students.

### 2. Main Activities

#### a. Exploration (5 minutes)

- ✓ Teacher gives situation and asks student to guess what kinds of expressions will they use for expressing like and dislike. *What will you say if you like something? Ok, good. What else? How if you hate something? What expressions will you use?*

#### b. Elaboration (60 minutes)

- ✓ The teacher explains about expressing *like and dislike*.
- ✓ The teacher asks students to listen to her explanation carefully.
- ✓ The teacher gives an example of dialog using expressions of *like and dislike*.
- ✓ Students pay attention to her explanation.
- ✓ The teacher gives explanation about that dialog, especially in the using of *like, dislike*, and using Simple Present Tense.
- ✓ The teacher explains about the structure of Simple Present Tense patterns.
- ✓ The teacher takes one sentence using simple present tense from the dialog.
- ✓ The teacher changes the subject and asks students one by one to say the sentence orally. (Single Slot Substitution Drill)
- ✓ The teacher asks students to make a group consist of three persons.
- ✓ The teacher asks each group to make a dialog using *like and dislike* expression.
- ✓ The teacher asks them to perform the dialog in front of the classroom.

## c. Confirmation (5 minutes)

- ✓ Students and the teacher conclude the lesson about *like*, *dislike*, and Simple Present Tense.
- ✓ The teacher reinforces students' understanding about *like*, *dislike*, and Simple Present Tense.

## 3. Closing (5 minutes)

- ✓ Teacher summarizes the lesson.
- ✓ Teacher asks students to give their impression about the lesson.

## VI.SOURCE AND MEDIA

- a. Expression of like, dislike and Simple Present Tense patterns
- b. English Focus Grade VII

## VII.ASSESSMENT

## a. Indicator

Indicator of Competency Attainment	Technique	Form	Example
Use Simple Present Tense correctly.	Spoken Test	Sentence	Change the subject based the given nouns orally! Example: <b>He is very handsome.</b>  1. My father... 2. They..... 3. You..... .....
Use Simple Present Tense in the dialog.	Written Test, Spoken Test	Dialog	Make a dialog using <i>like and dislike</i> expression!

## b. Instrument

## Exercise

Change the subject based on my word orally! Make the correct sentence!

**He is very handsome. (Clever, kind, naughty)**

1. My father
2. They
3. You
4. My father and I

5. Bob and Mark
6. We
7. I

**Bill : Is she clever? (Clever, kind, naughty)**

**Sarah : Yes, she is/ No, she isn't.**

1. They
2. Sarah
3. My father and I
4. Bob and Jill
5. My parents
6. I
7. We
8. You

**I am not a worker. (Teacher, student, singer, dancer)**

1. She
2. They
3. He
4. You
5. My parents
6. We
7. Kim and his sister

Assessment

Make a dialog using expression of like and dislike!

c. Rubric of Assessment

Assessment

Total Score 100

2. Model : Single slot substitution drill

### V.STEPS OF LEARNING ACTIVITY

1. Introduction (5 minutes)

- ✓ Teacher asks about students' condition (apperception)

*Good morning students. How are you? Good. Who is absent today?*

- ✓ Teacher gives the purpose of learning and competency that has to be achieved by students.

## 2. Main Activity

### a. Exploration (5 minutes)

- ✓ Teacher gives situation and asks student to guess what kind of expression they will use for asking opinion. *If you want to ask someone about their opinion, what will you say? Yes, what else? Ok, good. How do we answer the question if we will give our opinion?*

### b. Elaboration (60 minutes)

- ✓ The teacher explains about the use of *giving opinion*.
- ✓ The teacher asks students to listen to her explanation carefully.
- ✓ The teacher gives an example of dialog using *giving opinion*.
- ✓ Students pay attention to her explanation.
- ✓ The teacher gives explanation about that dialog, especially in the using of *giving opinion* and using Simple Present Tense.
- ✓ The teacher explains about the structure of Simple Present Tense patterns.
- ✓ The teacher takes one sentence using Simple Present Tense from the dialog.
- ✓ The teacher changes the subject and ask student one by one to say the sentence orally. (Single Slot Substitution Drill)
- ✓ The teacher asks students to make a group and asks them to make a dialog.

- ✓ The teacher asks students to perform the dialog in front of the classroom.

### c. Confirmation (5 minutes)

- ✓ Students and the teacher conclude the lesson about *giving opinion* and Simple Present Tense.
- ✓ The teacher reinforces students' understanding in *giving opinion* and Simple Present Tense.

## d. Closing (5 minutes)

- ✓ Teacher summarizes the lesson.
- ✓ Teacher asks students to give their impression about the lesson.

## VI.SOURCE AND MEDIA

- a. Expression of *asking and giving opinion* and Simple Present Tense patterns.
- b. English Focus Grade VII

## VII.ASSESSMENT

## a. Indicator

Indicator of Competency Attainment	Technique	Form	Example:
Use Simple Present Tense correctly.	Spoken Test	Sentence	Change the subject with the given nouns orally!  <b>I spend a lot of time with it.</b>  1. She.... 2. They..... 3. He.....
Use Simple Present Tense in the dialog.	Written Test, Spoken Test	Dialog	Make a dialog using an expression of <i>giving opinion</i> and perform it in front of the classroom!

## b. Instrument

## Exercise

Change the subject based on my word orally! Make the correct sentence!

**I spend a lot of time with it. (Money, take)**

1. She
2. They
3. He
4. You
5. Sarah
6. My father and I
7. Bob and Jill
8. My parents
9. We
10. Kim and his sister

**I don't like it. (Him, her, his attitude, apple)**

1. She

2. They
3. He
4. You
5. My parents
6. We
7. Kim and his sister

**Do you feed it?**

1. They
2. Sarah
3. My father and I
4. Bob and Jill
5. My parents

**No, I don't. My servant gives it food three times a day. (Water, every hour)**

1. She
2. They
3. He
4. You
5. My parents
6. We
7. Kim and his sister

Assessment

Make a dialog using an expression of giving opinion and perform it in front of the classroom!

I	do not like	hard music.
She	does not like	cookies.
He	does not like	hiking.
We	do not like	smoking.
You	do not like	mountain climbing.

Study how to ask likes and dislikes for different subjects below.

DO/DOES	SUBJECT	VERB	NOUN
Do	they	like	smoking?
Do	you	like	mountain climbing?
Does	she	like	cookies?
Does	he	like	hiking?

## Dialog 1

Bill : “Hi Sarah, *what about* your new job?”

Sarah : “***I think*** it is very nice. I enjoy my work now.”

Bill : “Congratulation.”

Sarah : “Thank you.”

Bill : “Do you buy a new car?”

Sarah : “Yes, I do. I bought it after I got my salary.”

Bill : “Wow, you must be got a big salary.”

Sarah : “Hmmm...”

## IV. METODE DAN MODEL

1. Metode : Audiolingual method
2. Model : Single Slot Substitution Drill

## V. STEPS OF LEARNING ACTIVITY

1. Introduction (5 minutes)

✓ Teacher asks about students' condition (apperception)

*Good morning students. How's life? Good. Who is absent today?*

- ✓ Teacher gives the purpose of learning and competency that has to be achieved by students.

## 2. Main Activities

### a. Exploration (5 minutes)

- ✓ Teacher checks the students' understanding about like, dislike, clarification, and giving opinion. *Okay, what had we learn last week? Yes, good. How about last meeting? Good.*

### b. Elaboration (60 minutes)

- ✓ The teacher asks students to make a group consists of three persons.
- ✓ The teacher explains about expressing *like, dislike, clarification, and giving opinion*.
- ✓ The teacher asks students to listen to her explanation carefully.
- ✓ The teacher gives an example of dialog using expressions of *like, dislike, clarification, and giving opinion*.
- ✓ Students pay attention to her explanation.
- ✓ The teacher gives explanation about that dialog, especially in the using of *like, dislike, giving opinion*, and using Simple Present Tense.
- ✓ The teacher explains about the structure of Simple Present Tense patterns.
- ✓ The teacher takes one sentence using simple present tense from the dialog.
- ✓ The teacher changes the subject and asks students one by one to say the sentence orally. (Single Slot Substitution Drill)
- ✓ The teacher asks students to complete sentences with the appropriate word using Simple Present Tense.

### c. Confirmation (5 minutes)

- ✓ Students and the teacher conclude the lesson about like, dislike, giving opinion, clarification, and Simple Present Tense.

- ✓ The teacher reinforces students' understanding about like, dislike, giving opinion, clarification, and Simple Present Tense.

### 3. Closing (5 minutes)

- ✓ Teacher summarizes the lesson.
- ✓ Teacher asks students to give their impression about the lesson.

## VI. SOURCE AND MEDIA

- b. English Focus Grade VII

## VII. ASSESSMENT

### a. Indicator

Indicator of Competency Attainment	Technique	Form	Example
Use Simple Present Tense in a dialog correctly.	Spoken and written test	Sentence	Make a dialog using expression of like, dislike, and giving opinion and perform in front of the class!
Use Simple Present Tense correctly.	Written	Multiple Choice Items	Answer the following questions by putting a cross(X) on either A, B, C, or D for the right answer! 1. Everyone....all right now. A. are B. does C. is D. do

### b. Instrument

#### Exercise

Change the subject based on my word orally! Make the correct sentence!

**He is very handsome. (Smart, ugly, calm)**

1. My father
2. They

3. You
4. My father and I
5. Bob and Mark
6. We
7. I

**Bill : Is she clever?**

**Sarah : Yes, she is/ No, she isn't.**

1. They
2. Sarah
3. My father and I
4. Bob and Jill
5. My parents
6. I
7. We
8. You

**I am not a worker.**

1. She
2. They
3. He
4. You
5. My parents
6. We
7. Kim and his sister

**I enjoy the work now. (Like, this morning)**

1. She
2. They
3. He
4. You
5. Sarah
6. My father and I
7. Bob and Jill
8. My parents
9. We
10. Kim and his sister

**Bill : Do you buy a new car? (Motor cycle, book, bring, sell)**

**Sarah : Yes, I do/ No, I don't.**

1. They
2. Sarah
3. My father and I
4. Bob and Jill
5. My parents

**I don't buy a new car.**

1. She
2. They
3. He
4. You
5. My parents
6. We
7. Kim and his sister

## Assessment

**Answer the following questions by putting a cross(X) on either A, B, C, or D for the right answer!**

Belinda is in a market. She needs a book and a pencil. Her mother, Mrs. Amalia, is also in a market. She wants to buy some apples and some oranges.

1. What does Belinda want?  
She.....a book and a pencil.
 

A. want	C. wants
B. do not want	D. wanted
  
2. ....Mrs. Amalia want to buy some apples and some oranges? Yes, she.....
 

A. Do---do	C. Do---doesn't
B. Does---does	D. Do---does
  
3. Beno : What is your favorite sport?  
Dicki : Wall climbing.  
Beno : .....you.....it every day?  
Dicki : No, just on Sunday.
 

A. Do---does	C. Does---do
B. Do---do	D. Does---does
  
4. Are they workers? ..... They are fishermen.
 

A. No, they aren't	C. No, they isn't
B. Yes, they are	D. Yes, they is
  
5. ....when they read funny stories? They feel happy.
 

A. How does they feel?	C. How does they feels?
B. How do they feel?	D. How are they feeling?

6. Mr. Andy, Mr. Garry, and Mrs. Aida..... very clever. I like them very much.

- |         |        |
|---------|--------|
| A. Is   | C. are |
| B. have | D. has |

7. ....we get more information from browsing? Yes, .....

- |                   |                 |
|-------------------|-----------------|
| A. Does---we does | C. Do---we do   |
| B. Do---we does   | D. Are---we are |

8. has---at---1 p.m.---my father---always---lunch

Arrange these words into a good sentence!

- |  |
|--|
| A. My father has lunch always at 1 p.m.  |
| B. At 1 p.m. always my father has lunch. |
| C. My father always has lunch at 1 p.m.  |
| D. My father has always lunch at 1 p.m.  |

9. ....your parents doctors? Yes, they..... They works everyday.

- |                |               |
|----------------|---------------|
| A. Are—are not | C. Do—do      |
| B. Are—are     | D. Do- do not |

10. Alunna is a clever student. She has an interesting hobby.

She.....collecting books. She.....novel, comic, and lesson books.

- |                     |                    |
|---------------------|--------------------|
| A. likes---collects | C. likes---collect |

LESSON PLAN  
CYCLE 2  
MEETING 5

The Identity : SMP Negeri 1 Bawang, Batang  
Subject : English  
Class/Semester : VII/II  
Time allotment : 2 x 40 minutes (1x meeting)

STANDARD COMPETENCE

**Reading**

11. Memahami makna teks tulis fungsional dan esei pendek sangat sederhana berbentuk *descriptive* dan *procedure* yang berkaitan dengan lingkungan terdekat.

BASIC COMPETENCE

11.2. Merespon makna dan langkah retorika secara akurat, lancar dan berterima dalam esei sangat sederhana yang berkaitan dengan lingkungan terdekat dalam teks berbentuk *descriptive* dan *procedure*.

I. TEXT TYPE

Descriptive text

II. OBJECTIVES

In the end of the lesson, 75% of all the students are able to

1. Find information in the descriptive text entitled My Timmy.
2. Mention Simple Present Tense in the descriptive text.
3. Use Simple Present Tense correctly.

III. MATERIAL OF LEARNING

A descriptive text is a text which describes a particular person, place, or thing. In a descriptive text, the writer usually uses the simple present tense.

The structure of a descriptive text:

- a. Identification : identifies phenomenon to be described.
- b. Description : describes parts, qualities, characteristics of the person or something that is described.

The purpose of descriptive text : to describe something.

My Timmy

Identification → I have some pets. However, my favorite pet is Timmy.

Description → Timmy is a male tabby cat. He is very adorable with his soft stripes fur. He has innocent round eyes and feeble sweet voice. He always meows when he feels hungry. Actually, his voice is not suitable with his giant body. When I come home, he usually gives me a kiss.

Timmy is a nice playmate. I'm happy to spend my time with him. Most of the time, he's a good boy. It's almost impossible for me to be angry at him. In the morning, he always wakes up early. When he wakes up earlier, he waits quietly by my bedside until I wake up.

**SIMPLE PRESENT TENSE**

FORMULA: (+) **S+V1(es/s)+ C**  
 (-) **S+do/does+not+V1+C**  
 (?) **Do/does+S+V1+C**

#### IV.METHOD DAN MODEL

1. Method : Audio-lingual method
2. Model : Single Slot Substitution Drill

#### V.STEPS OF LEARNING ACTIVITY

1. Introduction (5 minutes)
  - ✓ Teacher asks about students' condition (apperception)

*Good morning students. How's life? Good. Who is absent today?*

- ✓ Teacher gives the purpose of learning and competency that has to be achieved by students.

## 2. Main Activities

### a. Exploration (5 minutes)

- ✓ Teacher asks students about their understanding of descriptive text.

*Have you ever heard about descriptive text? In bahasa we call it teks deskripsi. What can we find in the descriptive text?*

### b. Elaboration (60 minutes)

- ✓ Teacher gives explanation about descriptive text.
- ✓ Teacher asks students to listen her explanation carefully.
- ✓ Teacher gives the example of descriptive text.
- ✓ Students do exercise 1 with their friend.
- ✓ Teacher discusses students' answer.
- ✓ Teacher asks students to find sentences using Simple Present Tense in the text.
- ✓ Students and teacher discuss the answers together.
- ✓ Teacher takes one sentence from the text entitled My Timmy.
- ✓ Teacher asks students to change the sentences based on teacher's words.
- ✓ Teacher corrects students' answer.

### c. Confirmation (5 minutes)

- ✓ Students and teacher conclude the lesson about descriptive text and Simple Present Tense pattern.

- ✓ Teacher reinforces students' understanding about descriptive text and Simple Present Tense patterns.

## 3. Closing (5 minutes)

- ✓ Teacher summarizes the lesson.
- ✓ Teacher asks students to give their impression about the lesson.

## VI.SOURCE AND MEDIA

- a. Descriptive text and Simple Present Tense patterns

## b. Instrument

## Exercise

Read the text below and answer the following questions correctly!

### My Timmy

I have some pets. However, my favorite pet is Timmy.

Timmy is a male tabby cat. He is very adorable with his soft stripes fur. He has innocent round eyes and feeble sweet voice. He always meows when he feels hungry. Actually, his voice is not suitable with his giant body. When I come home, he usually gives me a kiss.

Timmy is a nice playmate. I'm happy to spend my time with him. Most of the time, he's a good boy. It's almost impossible for me to be angry at him. In the morning, he always wakes up early. When he wakes up earlier, he waits quietly by my bedside until I wake up.

1. What is the purpose of the text? To describe something or to entertain the readers?
2. What kind of text is it, descriptive or narrative text?
3. Who is Timmy?
4. What is his characteristic?
5. What does he do when he wakes up earlier?
6. When does he usually give a kiss to the writer?
7. Why is the writer almost impossible to be angry at his cat?

#### Assessment 1

Mention 10 sentences using Simple Present Tense in the text above!

1. ....
2. ....
3. ....

.....

## Assessment 2

Change the subject based on my word orally! Make the correct sentence!

**I have some pets. (Buy, flowers, friends)**

1. My father
2. They
3. Jean's mother
4. My father and I
5. Bob and Mark
6. He
7. Bima

**Bill : Do you have any pets?**

**Sarah : Yes, I do/ No, I don't.**

1. They
2. Sarah
3. Bob's brother
4. My parents
5. She
6. We
7. He

**I don't have any pets.**

1. She
2. They
3. He
4. My parents
5. We
6. Kim's sister

## Exercise 2

Read the text below and answer the questions below!

### My Classroom

This is my classroom. It is large and clean. It is beside the computer laboratory. It is not far from the teacher's office.

It has sixteen tables and thirty-two chairs for the students. The teacher's desk is in front of the class. There is a vase and flowers on it. They are beautiful. There is a clock on the wall. A big blackboard is in front of the classroom. There is also a timetable beside it. A cupboard is in the corner. There is a bookshelf on the left side. There is a broom beside it. The books are arranged well in it. A map is above it. There are two windows on the right side.

1. How is the writer's classroom?
2. Is it near the teacher's office?

3. How many chairs are there for the students?
4. What are there on the teacher's desk?
5. Where is the timetable?
6. How many windows are there?
7. "**It** is not far from the teacher's office" (par.1 line 1).
8. "There is a vase and flowers on **it**" (par.2 line.2). What does the underlined word refer to?
9. "**They** are beautiful" (par.2 line.2). What does the word "they" refer to?
10. "The books are arranged well in **it**" (par.2 line 4).

#### Assessment

Change the subject!

**The teacher's desk is in front of the class. (Canteen, office)**

1. The book
1. The broom and the blackboard
2. Books on the shelf
3. Chalk on the table
4. My pencil
5. Timmy
6. Jack and Marry
7. Chalks on the box

**The teacher's desk isn't in front of the class.**

1. The broom and the blackboard
2. Books on the shelf
3. Chalk on the table
4. My pencil
5. Timmy
6. Jack and Marry
7. Chalks on the box

**Q : Is the teacher's desk in front of the class?**

**A : Yes, it is/ No, it isn't**

1. Pencils
2. Broom and cupboard
3. Student's chair
4. Chalks on the box
5. Billy
6. My father

Indicator of Competency Attainment	Technique	Form	Example

Write a descriptive text based on the picture.	Written test	Essay	Look at the picture and make descriptive text based on the picture!
Use Simple Present Tense correctly.	Written test	Multiple choice items	Answer the following questions by putting a cross (X) on either A, B, C, or D for the right answer!

b. Instrument

Exercise

Make a descriptive text based on the picture!

My living room

In my living room, there

is.....

.....

.....

.....

.....

.....

.....

## Exercise

**It has seventeen tables and thirty-four chairs.**

1. My father
2. They
3. Jean's mother
4. My father and I
5. Bob and Mark
6. He
7. Bima

**Bill : Does it have seventeen tables and thirty-four chairs?**

**Sarah : Yes, It does/ No, It doesn't.**

1. They
2. Sarah
3. Bob's brother
4. My parents
5. She
6. We
7. He

**It doesn't have seventeen tables and thirty-four chairs.**

1. She
2. They
3. He
4. My parents
5. We
6. Kim's sister

## Assessment

**Answer the following questions by putting a cross (X) on either A, B, C, or D for the right answer!**

1. Mill and Bill.....my classmates. We study in a different class.
 

A. aren't	C. isn't
B. are	D. is
  
2. The windows.....clean.
 

A. is	C. are
B. have	D. has
  
3. Mr. and Mrs. Smith.....English.
 

A. am	C. speaks
B. is	D. speak

4. Jane.....like movie.  
 A. does  
 B. isn't  
 C. is  
 D. doesn't
5. Those women.....diligent.  
 A. have  
 B. has  
 C. is  
 D. are
6. Kim.....like movie but he.....concerts.  
 A. like—likes  
 B. doesn't—likes  
 C. likes—like  
 D. doesn't—like
7. These.....carpenters.  
 A. is  
 B. am  
 C. isn't  
 D. are
8. Our teacher..... Jane and me with English language.  
 A. help  
 B. helps  
 C. study  
 D. studies
9. ....he.....lunch?  
 A. Does—eat  
 B. Does—eats  
 C. Do—eat  
 D. Do—eats
10. The market.....near the post office.  
 A. are  
 B. has  
 C. have  
 D. is
11. The farmers.....from the village to bring some vegetables and fruits every Sunday.  
 A. coming  
 B. comes  
 C. come  
 D. came
12. Hypermart.....a lot of things.  
 A. sold  
 B. sella  
 C. sell  
 D. selling
13. Your bags.....very clean.  
 A. are  
 B. is  
 C. have  
 D. has

14. The students.....singing every Sunday morning.  
 A. practices C. practicing  
 B. practice D. practiced
15. Most of the water.....clean.  
 A. are C. is  
 B. aren't D. don't
16. ....tigers carnivors?  
 A. is C. are  
 B. does D. do
17. The students usually.....to the library every break.  
 A. go C. went  
 B. goes D. going
18. My classmate.....very kind. She always helps me whenever I need her help.  
 A. are C. is  
 B. aren't D. isn't
19. We are in a canteen every break. We.....to have some meals and drinks.  
 A. wants C. want  
 B. wanting D. wanted
20. The teacher always.....the students in the school.  
 A. helps C. helped  
 B. helping D. help
21. She.....three cats at home: black, white, and brown.  
 A. has C. have  
 B. having D. had
22. There.....some pencils on the table.  
 A. is C. is not  
 B. are D. not
23. My sister and mother.....not at home.  
 A. is C. have  
 B. are D. has

24. Mrs. Anita is a good housewife. She always.....breakfast for her family.

- A. prepare
- B. preparing
- C. prepared
- D. prepares

25. Dina is an SMP student. She.....a school uniform. Her blouse is white and her skirt is blue.

- A. wears
- B. wear
- C. wearing
- D. wore

26. My bicycle....very clean. I wash it every day.

- A. was
- B. were
- C. is
- D. are

27. Those women.....the same bag on their hands.

- A. wear
- B. wears
- C. bring
- D. brings

28. ....Indra’s father.....in a bank?

- A. Do---works
- B. Does---works
- C. Does---work
- D. Do---work

29. Justin and Bian....my best friends.

- A. are
- B. was
- C. is
- D. isn’t

30. The books near the blackboard.....mine.

- A. is
- B. are
- C. were
- D. was

c. Rubric of assessment  
Total score 50 x 2=100

Sentence	0	False
	2	True

## Appendix 16

## Outline of Each Stage of the Research

Activity	Stages		Teaching and Learning Process	Time Allotment
Try out			- Students did the try out test.	60 minutes
Pre-test			- Students did the pre-test.	50 minutes
			- Students filled out the first questionnaire.	10 minutes
Cycle 1	First meeting	Introduction	- Teacher asked about students' condition (apperception) - Teacher gave the purpose of learning and competency that had to be achieved by students.	5 minutes
		Exploration	- Teacher gave situation and asked students to guess what kinds of expressions they used for expressing <i>like</i> and <i>dislike</i> .	5 minutes
		Elaboration	- The teacher explained about expressing <i>like</i> and <i>dislike</i> . - The teacher asked students to listen to her explanation carefully. - The teacher gave an example of dialog using expressions of <i>like</i> and <i>dislike</i> . - Students paid attention to her explanation. - The teacher gave explanation about that dialog, especially in the using of <i>like</i> , <i>dislike</i> , and	60 minutes

			<p>using simple present tense.</p> <ul style="list-style-type: none"> <li>- The teacher explained about the structure of simple present tense patterns.</li> <li>- The teacher took one sentence using simple present tense from the dialog.</li> <li>- The teacher changed the subject and asked students one by one to say the sentence orally. (single slot substitution drill)</li> <li>- The teacher asked students to make a group consisting of three persons.</li> <li>- The teacher asked each group to make a dialog using <i>like</i> and <i>dislike</i> expression.</li> <li>- The teacher asked them to perform the dialog in front of the classroom.</li> </ul>	
		Confirmation	<ul style="list-style-type: none"> <li>- Students and the teacher concluded the lesson about <i>like</i>, <i>dislike</i>, and simple present tense.</li> <li>- The teacher reinforced students' understanding about <i>like</i>, <i>dislike</i>, and simple present tense.</li> </ul>	5 minutes
		Closing	<ul style="list-style-type: none"> <li>- The teacher summarized the lesson.</li> <li>- The teacher asked students to give their impression</li> </ul>	5 minutes

			about the lesson.	
	Second meeting	Introduction	<ul style="list-style-type: none"> <li>- The teacher asked about students' condition (apperception)</li> <li>- Teacher gave the purpose of learning and competency that had to be achieved by students.</li> </ul>	5 minutes
		Exploration	<ul style="list-style-type: none"> <li>- Teacher gave situation and asked student to guess what kind of expression they would use for <i>asking opinion</i>.</li> </ul>	5 minutes
		Elaboration	<ul style="list-style-type: none"> <li>- The teacher explained about the use of <i>giving opinion</i>.</li> <li>- The teacher asked students to listen to her explanation carefully.</li> <li>- The teacher gave an example of dialog using <i>giving opinion</i>.</li> <li>- Students paid attention to her explanation.</li> <li>- The teacher gave explanation about that dialog, especially in the using of <i>giving opinion</i> and using simple present tense.</li> <li>- The teacher explained about the structure of simple present tense patterns.</li> <li>- The teacher took one sentence using simple present tense from the dialog.</li> </ul>	60 minutes

			<ul style="list-style-type: none"> <li>- The teacher changed the subject and ask student one by one to say the sentence orally.
