#### Dear Fafurida Fafurida,

Sending to journal '*Turyzm/Tourism*' your paper have been publish recently in some parts in 'Rural tourism recovery strategy for strengthening the village economy' (<u>https://www.atlantis-press.com/proceedings/unicssh-22/125984056</u>). Verify this parts which are almost the same in 'Tourism village clusters: Potential for development Jepara, Indonesia' because we can not republish the fragments of previously published works as new works (authoplagiat), without providing information on this. You have to point in the text which part have been taken from your previous paper and add your paper "Rural tourism...' to the References.

You have copied almost a whole References from your article 'Rural tourism recovery strategy for strengthening the village economy' to the paper sending us to '*Turyzm/Tourism*', but most of them (20 bibliography records!!!) there are not quoted in the text. You have to delate there.

References are not prepare according to APA7 style which are the rools of our '*Turyzm/Tourism*' journal. You <u>must prepare it looking to the internet page of our journal</u>. We expect also to see appropriate internet adresses to <u>everyone bibliography record</u> which will be active and of course the dates you retrieve statistic papers. You have to add also to the Reference everyone raport pointed in the text in comments.

We are waiting for your request until 16th of October.

Sincerely yours

Elżbieta Paradowska

#### Dear editor of Turyzm/Tourism Journal

Thank you for the corrections provided. I have tried to revise the corrections provided by editor. Below I send the results of the revision. Hopefully it will be better and worthy of being published soon. Thank You.

#### Dear Fafurida,

Thank you for correct the text of your article. Anyway, you did not look to the References. As I stay you do not read in detail my e-mail and still do not prepare your article in accordance with the publishing house's rules (*Turyzm/Tourism* journal). We can not do too much for author. We waste too much time for correcting one article (your article). Almost 50 articles are waiting in line to be prepared for publication.

Do your references <u>appropriate</u> in pointed places following the <u>rules of *Turyzm/Tourism*</u> journal. I believe it is the last my request to correct it. In the first comment to the Reference you can find very clear explanation how it has to be done.

Please, answer the comments or make correction in the text (references) but <u>do not delete my</u> <u>comments</u> like before. Will be easier for me to check it.

I am waiting for answer untill 6<sup>th</sup> of Nov.

#### Dear editor of Turyzm/Tourism Journal

Thank you for the corrections provided.Sorry if in the previous repair, there is still a lot that needs to be repaired. I have tried to revise the corrections provided by editor. Below I send the results of the revision. Hopefully it will be better and worthy of being published soon. Thank You.

#### Dear Fafurida Fafurida,

I am sending you an article with requests for answers to your questions in the places marked in blue. Please answer all questions in the comments and make corrections in track changes. You corrected the bibliographic descriptions, but did not change any footnotes. Above all please correct them. There are also questions about tables and abbreviations.

I'm sorry, but if you had read the editorial guidelines for authors that Mrs. Paradowska sent you, it would have saved us a lot of valuable time: <u>https://czasopisma.uni.lodz.pl/tourism/editorial\_instructions</u>

Bibliography is part of the academic apparatus and it is the author's responsibility to provide appropriate, verifiable and consistent sources. Please check faithfully each footnote from the article is now assigned to the appropriate item in the bibliography, and each item from the bibliography is referenced in the text of the article.

Please send back the file with your answers by November 9.

Yours faithfully

#### Dear Fafurida Fafurida,

thank you for the quick reply. I corrected your footnotes a bit. When you provide references with the original names in parentheses, you do not need to remove the English terms (which are more clear to our reader). There is still the abbreviation F to be expanded in the table 9 (*F*-test?).

Please read the whole, check it and if you accept the file, we will send it to the next stage of editorial work.

I will be grateful if you send me acceptance of the article today.

Yours faithfully

Katarzyna Szumska

Thank you to the editor who responded so quickly. Yes, F in table 9 is the F-test. I have read the contents of the article and I have agreed to continue at the next stage. Thank you very much.
